Public Consultation - Changes to Speed Limits

COMPLETE #5

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Name

Crystal Tinkled-Marr

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

This change needs to go further than this.
As a resident of Te Aute rd i have come across several accidents on the Te Aute Gilpin bridge but also serious accidents up on the Te Aute St Georges corner.
Another issue is the speed people do from the longlands corner up Te Aute rd (towards pakipaki) and as of the most recent accident on that strerch of road just 4 days ago we have counted 16 accidents on that stretch of road in 2 years! From gilpin te aute should be an 80km rd.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Please consider reducing speed limit in tollemache road, southland road and heathcote road area as well, heathcote road has a very sharp corner that is suggested to go around at 25 but yet the speed limit along southland to it is 100...vehicles under estimate the corner and either slam on brakes in attempt to go round corner or end up in deep drain

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

To Whom It May Concern

I am writing in regard to the speed limit of 100km at the southern end of Southland Road and Heathcote Road and asking it be considered to be reduced to either 70km or 80km.

There are a number of reasons I believe that these 2 roads create an unnecessary danger by being the national speed limit and would benefit by reducing the speed limit ...

1) These 2 areas run off of a very busy urban road and suburb (Southland Road and Raureka). To go from a 50km busy residential area instantly to a 100km is unsafe. Very few cars enter the 50km zone doing 50km as they are still slowing down from the 100km limit.

2) There is a 45 degree corner on the corners of Southland and Heathcote Roads that has been the reason of a number of accidents over the years where cars are travelling at the 100km speed and the corner surprises them causing them crash in verges, fences and potentially power poles causing damage to themselves and residents property. Accidents that could be prevented if the cars were travelling slower.

3) Heathcote Rd is barely 1km long but homes a busy stables that regularly runs holiday programmes and after school lessons etc resulting in around a dozen or so cars parking on the road to drop off kids and pick them up. This is dangerous for parents and kids getting in and out of cars and crossing on the 100km zone. Also for the cars driving past at 100km and having children roaming on the verges- an accident waiting to happen but could be avoided if cars were travelling slower.

4) The stables regularly grazed their horses on the grass verges with sometimes juvenile children in charge of keeping them under control. Another potential hazard if cars are travelling at 100km and the horse(s) get spooked causing serious harm to whoever is in charge of the animals, the driver (s) and the animals.

5) There are a total number of 13 gates or driveways down Heathcote Road. On a road that's approx 1km long that's an awful lot of driveways to have vehicles entering and exiting throughout the day...I would not think 100km is a suitable and safe speed limit to have around this many driveways and entrances and exits.

6) There are 6 orchards on the southern end of Southland Road and Heathcote Road...this creates a great number of slow moving farm vehicles using the road regularly...other motorists take unnecessary risks in order to pass these machines as they are wanting to hit the speed limit of 100km. This creates a potential risk of accidents and serious crashes.

7) Wellwood Road (a no exit road) runs off of Heathcote Road. It houses one of Emmersons Warehouses. This business creates a constant movement of large Trucks and Trailers turning into and out of the street. They do not have time to get any speed up before they hit Maraekakaho Road causing cars behind them to attempt dangerous passing right near the junction in order to keep up their 100km speed...

8) Also down Wellwood Road there are sheds that home large farm machinery that is in constant use, meaning that these machines are regularly using Heathcote Road, and as above not having enough time to get up their speed which causes motorists to make dangerous passes to maintain their 100km speed.

9) The SPCA takes residents on the corner of Heathcote Road and Maraekakaho Rd. Their entrance is in constant use with people viewing animals and volunteers etc.

10) The volunteers at the SPCA use Heathcote Road verges to walk the dogs daily. This means (although on leads) potentially any dogs who become out of control or slip their leads could cause accidents by running wild on a 100km road.

11) People regularly dump their unwanted animals outside the SPCA out of hours...these poor animals are rarely restrained and end up wandering Heathcote Road...This is not only dangerous having uncontrolled animals running freely along a 100km zone with a real risk of getting hit, but also drivers attempting to avoid these animals having accidents themselves.

12) Since Wall Road was reduced from a 70km zone to a 50km zone, the boy racers use the Southland Road

and Heathcote Road route to move between Hastings and Flaxmere. The majority of these cars driven are well over the speed limit of 100km, and they use this route regularly as a race track to race each other during the night (and sometimes day) creating an extremely and unsafe scene.

I understand that York Road has recently been reduced to 80km and I truly believe there are more than enough reasons to consider reducing the southern end of Southland Road and Heathcote Road to either 80km or 70km.

The idea behind this email is to try and make this area a safer route for both drivers, pedestrians, residents and animals.

I do hope you read my points and can understand my request that this speed limit be looked into at getting reduced to a safer speed.

The area is so close to a busy urban area that I can not understand the need for the speed to dramatically change from 50km to 100km so close. Also the fact that the area in question is so busy with various business making it a busy area that cannot safely carry the 100km limit.

I assume that when the limit was initially set the urban area was further away and closer to town. However over the years the building of houses has meant this urban area is getting closer to the rural area to the point that they are practically touching...and due to this the speed limit of 100km is no longer a safe option.

I would appreciate you take my points into consideration and I look forward to hearing your thoughts.

Many thanks for your time.

Kind Regards

Emma Garland

Hi Emma,

Thanks for your email about this.

We currently have an external consultant reviewing the speed limits in our district, so I will pass on all of the information you have provided for them to consider. I'm sure they will appreciate the local knowledge of the area, which will assist them in making their recommendations to Council.

Kind Regards,

Lachlan

Public Consultation - Changes to Speed Limits

COMPLETE #20

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

We have recently moved into the new development near where the proposed speed limit change is being proposed. We have young children and would like East Road to be safe enough for them to bike or walk to school. There are lots of cyclists, runners and walkers now using the trails and locals constantly speed down this road causing issues for people who live on this stretch of road. One horse was killed by a driver going too fast. I would recommend and support this change to help promote people using the walkways that the council have installed along there.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Yes, I agree with the reduction of the speed limit as there are more children and pedestrians using the pathways and also about to live in the new Cape Grove development. I regularly watch cars speeding around this area and then suddenly slowing right before the intersection. It is becoming dangerous.

Yes I agree. In fact I suggest making it 50km/hr from the intersection of Parkhill & East Road - you have to slow down to take the corner in either direction onto Parkhill - so why not make the 50km/hr zone start around #119 Parkhill Road...?

Attach a document to your submission

Public Consultation - Changes to Speed Limits

COMPLETE #29

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

* Please indicate whether or not you wish to speak to your submission at a Council Meeting.

No

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Given the current and proposed residential development adjacent to this section of East Road, a speed limit reduction to 50 km/h is entirely appropriate to alleviate road traffic noise.
Given the increasing popularity of the Hawke's Bay zoo and the cycle hire business across the road, there is a strong case for the speed limit reduction on the grounds of road safety.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

there is a lot of traffic turning into the farmyard zoo currently within the 100km/h zone. they also rent out surrey bikes that cross the road and the reduced speed limit would help make that safer.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Please consider moving the speed limit change point to a point 300m west of the intersection with Rockwood Place. This is only 40m further than originally proposed but will assist a new subdivision being proposed which will utilise the existing farm access located 210m west of Rockwood Place. The additional 40m will assist in reducing vehicle speeds passing through this new intersection.

Thank you

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

I drive along this stretch of road frequently (and have been my whole life) and I'm always complaining to my passengers about the speed limit. 100km/hr feels really unsafe, 80km/hr feels much more appropriate. Many people already drive at 80km/hr along this route but when you do you run the risk of somebody passing you at an unsafe speed which is awful with so many cars around travelling so fast. I particularly hate the Stock Road intersection, I slow right down around that area until I turn off at Ngatarawa Road. There are often farm vehicles (big slow things) on this route too. Anyway, I wholeheartedly agree with this proposal for the safety of my family and my own peace of mind. It's much busier than it used to be and people need to acknowledge that 80km/hr is much more appropriate.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Public Consultation - Changes to Speed Limits

COMPLETE #39

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Please consider moving the speed limit change point to a point 300m west of the intersection with Rockwood Place. This is only 40m further than originally proposed but will assist a new subdivision being proposed which will utilise the existing farm access at 41 East Road, located 210m west of Rockwood Place. The additional 40m will assist in reducing vehicle speeds passing through this new intersection.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

50kmh that far out will not lead to the desired effect of protecting children on their way to school. The contrary will happen as after that much distance driving 50kmh on perfectly fine 100kmh road speeds are more likely to creep up just where the school crossing is.
I propose a 70kmh lead up to the existing 50kmh sign. This will reduce speed more reasonable and also reduce the use of engine breaks. Furthermore it will reduce emissions from cars as it is more likely that drivers will just take their foot of the accelerator and 'roll out' to the 50kmh sign that currently exists.
50kmh will just be ignored or used solely by the council for revenue collection. NO!
Go to Germany and have a look how its done properly!

This new road is a well constructed important arterial route. It should be 100 KMH.

With such advanced safety levels now incorporated in new vehicles, why this drive to slow traffic to Sunday cruise speeds?

Our district needs to be operating productively, with business not hampered by unrealistic slow transit times.

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Reducing to 70kph, as is the speed limit on SH2 passing the intersections of Ellwood Road & St Georges Road North would seem more sensible.

Although not part of these surveys I ask that consideration be given to increasing the speed limit of 60kph to 70kph on Pakowhai Road passing the intersections of Brookfields Road & Chesterhope Road. It doesn't seem appropriate, given there is a right turning centre lane for traffic turning into Brookfields Road. Plus where the 60kph area is the road has good width. I notice that most motorists don't slow right down to 60kph - usually stay around 70kph.

Item 6

Submission No. 56

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

* Please indicate whether or not you wish to speak to your submission at a Council Meeting.

No

Item 6

Submission No. 56

Public Consultation - Changes to Speed Limits

COMPLETE #57

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

I totally agree the 50km speed limit should be extended west (e.g. 100m) past the intersection between Bellerby Lane and Kereru Rd. But as all the new houses' road access is onto Bellerby Lane, I see absolutely no need for the 50km zone to be extended 580m along Kereru Rd. Happy to see a slow down 200-300m zone (70/80km) but given the low number (and no change) of driveway accesses -is this really necessary given you're own recognition of 'high levels of compliance' in your report.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

This is a short piece of roadway and does not require over reactive speed controls. Because of the nature of the piece of Roadway it should self regulate. Intersection Control i.e 'Stop' sign will assist self regulation.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

This proposal is tinkering with the 80 KPH obsession that pervades our District. Good road, Good visibility.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Tinkering without reasonable cause. This will merely add to the proliferation of short speed zone controls that only serves to confuse and frustrate local motorists.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Tinkering without reasonable cause. This will merely add to the proliferation of short speed zone controls that only serves to confuse and frustrate local motorists.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

This roadway is modern and capable of holding a 100 KPH limit. Tinkering with variable limits on short pieces of Roadway only serves to confuse and frustrate motorists ands in of itself causes reduced road safety.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

This roadway is modern and halves closer to the township. A reduced 70KPH zone approximately 500 m west of the intersection with Bellerby Lane would achieve the gradual reduction required for the townships 50 KPH.

I wholeheartedly support this change, as I have seen the effect of cars slowing or stopping to turn in to the Village Baptist Church property and consider the risks of the current 100kph limit in this area to be very high (esp. when compared to the minimal impact of cars being restricted to 50kph for an additional 1km only).

Now there is a cycle track, speed limit must be lowered.There is no way I would cycle that track, nor would I allow my grandchild to cycle to Haumoana School with the speed limit as it is.
I also feel you should consider lowering the speed limit to 70kph on Clifton Rd between the reserve and the village.It is only a question of time before there is a serious accident on that section of road.Observation of this area particularly at night shows numerous vehicles driving at excessive/dangerous speed after crossing the second 'speed bump'.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

I work alongside here and there has been substantial building and more vehicles using this road specifically heavy so yes this does need to be slowed down.

Attach a document to your submission

Item 6

Submission No. 65

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Could even be slower as vehicles travel extremely fast along here. There are more and more vehicles coming from side roads or business driveways and lowing speed will help minimise the occurrence of an accident.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

* Please indicate whether or not you wish to speak to your submission at a Council Meeting.

No

Item 6

Submission No. 65

Public Consultation - Changes to Speed Limits

COMPLETE #66

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Sensible move as there are numerous driveways.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

With the traffic turning from the west (Gilpin Road end) into Village Baptist Church they pull to the centre of the road as there is no pull off area in the 100 km zone, and this was reduced to 50 km Hour then that would be legal. Also pulling out onto Maraekakaho road when traffic is travelling at 100 km hr is also tricky and dangerous. 50 km Hr would slow every thing down to make it safer.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

I work for the Tumu Group situated at 1215 Maraekakaho Road. In the nearly 3 years I have worked there I have seen a vast increase in industry growth in the area. This means more traffic turning on to and off of Maraekakaho Road. Quite a few of our Tumu employees cycle or walk to work and with the speed limit of 100 km/h this is really dangerous. There are a large amount of huge trucks that use this road and when they pass someone on a bike or on foot at 100 km/h that is not only dangerous but quite frightening. We have a lot of customers coming and going to our Tumu ITM store and again with traffic doing 100 km/h that is tricky at times.

Agree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

There is going to be a retirement village built just out of Havelock North on Te Aute Road so reducing the speed limit makes good sense. Also traffic travelling into Havelock North on Te Aute Road needs to be slowed down much sooner than it is now as just inside the town boundary is a pedestrian crossing that is used before and after school hours.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

With the increased housing in this area this is a safer option - especially for children getting on and off school buses.

Agree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

I work at Village Baptist church, 147 Te Aute Road. I have witnessed many near misses with cars leaving or arriving at the church. Plus cars doing 100kms plus and overtaking on the straight stretch before the 65km corner near Gilpin Road.

There is no feeder lane to enter the church turning right. On a Sunday and when events are on at the church, there is a safety concern as the cars are going 100km in either direction. There is also area to pull to the left and then turn into the carpark.

I have nearly been wiped out several times by cars pulling out to overtake heading south as I am pulling out of the car park heading north.

There are quite a few people walking down to church and there is also a need for a footpath on either side of the road.

There is a proposed Aged Care facility across the road from us which will make it even more imperative that the speed limit is reduced to 50kms and provide a feeder lane to turn right into the church, plus footpaths on either side of the road for pedestrian safety.

I agree with this, although a change down to 50 km seems a little huge - how about 60 km or 70 km per hour? 100 km definitely too fast when there is residential property in place, also a busy church in place, and a retirement village about to be built.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

I support this proposal but would like to see a reduction in the speed for the balance of Te Aute and Longlands Road to 80km/hr. We are long time residents on Te Aute Road and live on the notorious corner on the second part of Te Aute Road where we regularly attend accidents for people who have crashed due to speed. Most recently last week, when the crash occurred at 5pm and was nearly a head on collision which would have resulted in fatalities. This corner needs urgent action, but we feel that the speed along the entire Te Aute Road/Longlands Road needs reduced to 80km. These roads are regularly used by tractors and other agricultural machinery all year round which adds to the danger aspect. The turn off from Longlands Road onto Te Aute Road is an accident waiting to happen - it is a frightening experience waiting at the corner to turn off onto Te Aute Road as the cars and trucks roar past at 100km. These issues need addressed, especially as the population of Havelock and Hastings grows. A reduction in speed on St Georges Road and other similar roads has worked well, we need something similar on our roads please!
Regards,
Christine Symes

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

I attend Village Baptist Church at 147 Te Aute Road and I have concerns about the speed limit being 100km/hr as it causes safety issues with cars pulling in and out of the church and also with people walking to and from the church from Havelock North. I believe for the safety of all that the speed limit should be changed to 50km/hr.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

* Please indicate whether or not you wish to speak to your submission at a Council Meeting.

No

Item 6

Submission No. 73

Public Consultation - Changes to Speed Limits

COMPLETE #74

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

The intersection at York Rd and Maraekakaho Road can be rather intimidating. Although people have to slow down to 70km/hr they don't and its especially bad when there's fog in the morning which actually happens quite often, its raining or there is a glare from the sun. It can be very hard to see oncoming traffic. I actually think the speed limit should go down to 50km/h where it is 70 at the moment. Decreasing the rest to 80km.hr will also help.

Attach a document to your submission

people in Hawkes bay don't do the speed limit as it is. changing this speed limit would achieve nothing. stop messing with the roads we have. they work perfectly fine as they are. lowering speed limits just cause frustration with drivers and that's what is causing car crashes.

I travel this road to work each day. Because of the number of vehicles turning into commercial premises along the route and into Irongate and Heathcote Roads it would be much safer if everyone was travelling slower to allow for mistakes. Many of the vehicles are truck and trailer units which adds to the complexity and time taken to enter and exit the road.

I understand a new roundabout is being added at the Irongate Road intersection so the traffic is better at a slower speed when approaching the roundabout.

Public Consultation - Changes to Speed Limits

COMPLETE #83

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

As someone who works within the existing 100km p/h corridor on Maraekakaho Road I fully support the reduction in speed limit to 80km p/h. The existing speed limit is dangerous when pulling in and exiting from our business.

Yes I work at Tumu and have seen some a lot of close calls with accidents here.
People seem to get mixed up on which street they wish to go down and pull out in front of other traffic.
Also with having the Buses, trucks pulling in and out.

I have a general comment to make here that I will copy and paste into all the other comments below. The suggested changes make sense, and in reality the speeds suggested are the speeds required to travel those roads safely already. However, with the imposition of new changes there is enforcement. Technology has made enforcement easier through the use of speed cameras, whether mobile or stationary.

The signage to indicate a change in speed has not changed with the times. They were designed in the 1940's/50's and have changed little in terms of size. Changes in speed need to be signposted much more predominantly because of the improved ability to catch transgressors, the cost of being caught in terms of fine and loss of license, and finally the amount of visual pollution that makes the current crop of inadequate signs difficult to see.

In order to be really safe, cars need a GPS to keep up with the miriad of speed changes required in order not to get caught. Entering Hastings at any stage should have large signage on ALL roads requiring the change from highway speed to 50kph, but we don't. The current small signs we have are no longer satisfactory.

My submission therefore is yes, make the necessary changes but they must be signposted so that drivers can see them clearly and this applies to all existing small signposting that I no longer think are appropriate to the 21st century.

I have a general comment to make here that I will copy and paste into all the other comments below. The suggested changes make sense, and in reality the speeds suggested are the speeds required to travel those roads safely already. However, with the imposition of new changes there is enforcement. Technology has made enforcement easier through the use of speed cameras, whether mobile or stationary.

The signage to indicate a change in speed has not changed with the times. They were designed in the 1940's/50's and have changed little in terms of size. Changes in speed need to be signposted much more predominantly because of the improved ability to catch transgressors, the cost of being caught in terms of fine and loss of license, and finally the amount of visual pollution that makes the current crop of inadequate signs difficult to see.

In order to be really safe, cars need a GPS to keep up with the miriad of speed changes required in order not to get caught. Entering Hastings at any stage should have large signage on ALL roads requiring the change from highway speed to 50kph, but we don't. The current small signs we have are no longer satisfactory.

My submission therefore is yes, make the necessary changes but they must be signposted so that drivers can see them clearly and this applies to all existing small signposting that I no longer think are appropriate to the 21st century.

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

I very strongly support the reduction in the speed limit in this area. We have recently moved into the Haumoana area and I have been quite disturbed by the current speed limit on East Road. I often walk and run along this road and at times have my young children riding bikes here as well. Plenty of other children ride along this road to travel to and from school. There is so little to separate pedestrians and cars on East Road, so reducing the speed is a very good move.
Thank you for considering this change!

I agree with this proposed change in speed limit, though it should be extended along East Road until the intersection with ParkHill Road. East road is often used by school children attending Haumoana school, so the reduced speed limit should be extended all the way along the route to the school.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

I agree with reducing it from 100km but to something in between - say more like 70km. There is no footpath - this would help with safety but although there are a few houses it is more rural than suburban and has pretty good visibility for seeing cyclists or farm vehicles etc if you need to slow down.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

It certainly shouldn't be 100!!! However as someone who regularly cycles from Havelock to Whakatu and has to cross this road, sometimes at very busy times it is hard to cross and there is only a small space in the middle of the road - only just wide enough for a bicycle. I think you should consider reducing the speed around the rail crossing which is close to the roundabout and business entrances so perhaps it could reduce to 50 around this area.

The old road crossing on Ruahapia had a solar cycle warning light if a cyclist was on or near the bridge...this safety feature has disappeared. Feels like this busier road is more dangerous to cross.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Item 6

Submission No. 101

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Strongly agree. I am a resident of Bellerby lane, and my property runs along kereru road. This speed limit needs to change to 50km. The logging trucks currently speed along this stretch of road. Currently it is too unsafe for the local children of Bellerby lane to bike or walk to school (500m walk), due to the speeding traffic or 100km traffic along this proposed stretch of road along kereru road. A change to 50 km would rectify this. And would also be safe with traffic turning into and out of Bellerby lane.
Also there are future subdivisions along this proposed area of road, therefore changing the build up residential area of the Maraekakaho village.
The proposal incorporates this.
Strongly support.

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

100km is a good speed for the this length of road, with an appropriate turning lane into Irongate I don't see a problem with the current speed.
What needs to be done though is fix/increase the verge between Tumu Timbers and CP Wool and outside the SPCA so that cyclist aren't forced out onto the road proper. It doesn't matter what the speed will end up, this is still a dangerous part of the road for the many cyclists using the road.

No one drives on this road at 80km, I understand this is required around the poorly designed bean shaped roundabout, but in the straight between the bean and Karamu Road end, 100km would be better suited.

There are many businesses down that part of the road and can be very dangerous at times with trucks pulling out, cutting cars off. I have had many near misses because of this. I normally only go 80km during the day along this stretch.

* Please indicate whether or not you wish to speak to your submission at a Council Meeting.

No

Item 6

Submission No. 107

Public Consultation - Changes to Speed Limits

COMPLETE #108

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

As this is not a through road this reduction will not have a great impact on commutes to city centers.

Attach a document to your submission

Item 6

Submission No. 108

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

This is a main road into the center of town where we work and shop. Reducing this speed limit will greatly affect our travel times. I suggest widening the road with dedicated merge lanes for turning traffic

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Again this is a major route to schools and work for people living in my community.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Isn't this already 80km?

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Agree

Item 6

Submission No. 108

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

There actually has been significant development out here unlike the other locations which are just proposed developments

Attach a document to your submission

*** Please indicate whether or not you wish to speak to your submission at a Council Meeting.**

Yes

Item 6

Submission No. 108

Public Consultation - Changes to Speed Limits

COMPLETE #109

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Too much of a drop, still the main route south out of havelock north, doubles time to get out of the village, and removes the viability of taking the longer, less congested route out of havelock and to the far (hospital) side of hastings, adding to inner city congestion

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

this should go to 80 km not 50,

the councils should work on free flowing traffic, not try to halt people. 50 means 30 to some people with the scare mongering that goes on.
the council in hb have a duty to realize people are held up all the way to their work places by trucks, (slow off the mark at roundabouts) by tractors and orchard equipment, we need more passing lanes on the highways,
bad, slow drivers are a big cause of impatience and accidents.

Attach a document to your submission

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

This is becoming a busy road with many entries.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

This sounds appropriate given the increased industrial activity on the road.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

This section of road has few gateways with the main public activity being the Baptist Church which is really only busy on Sundays.
Once the Ryman Lifestyle Village is built, there could be a case for change, but in the meantime there doesn't appear to be a good reason to reduce the limit, especially down to 50kph. The current entry to the 50kph is right on a moderate bend so slows traffic anyway.

.The intersection with Gilpin Road could well do with an upgrade for traffic turning in to Gilpin Road from Te Aute Rd.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

The speed limit needs to change - the community is growing and it is very dangerous for families and kids in the Maraekakako village and school with the way the speed is currently.
I see on a daily bases cars and logging trucks still doing at least 80kmph by the time they reach the school zone area. To move the sign will be of great benefit.

Submission No. 118

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

I am happy for the speed to change although 70 km would be better. It is bad enough with people passing on that stretch now because many resident slow down, but we don't do 50km. That is not necessary.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

We need more roads at 100 km to get the traffic to and from Napier faster. All the 80's and 70's from Havelock, Hastings, Pakowhai Rd aren't good for transporting quickly and efficiently. We need another road other than the motorway to get to Napier quickly and easily. Not sure why it was built with all those stupid bends in the first place. It should have been a good straight through road getting traffic from point A to B like the motorway. It should at least be 100 km from the Havelock end roundabout to the motorway. Napier is happy to get traffic moving their end. Hastings seems intent on frustrating drivers and perhaps causing them to do rash things if in a hurry.

It is not as if there are driveways and a populated area along here.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

I support to reduce the speed limit to 50km/hr to the village boundary, but 580m is way too far. It's encouraging people to break the law by having it extended so far out.

This is an absolute necessity. Vehicles speed up as soon as they pass the bridge on the urban boundary and aim to reach 100km as quickly as possible. Cyclists constantly suffer near misses, as the grass verge is so close to the white line on the road.The Village Baptist Church contains a large carpark meaning many vehicles need to turn in and out of their obscured driveway on any given day of the week. When the Ryman Retirement Village is underway, there will be many trades vehicles, and in the future, elderly residents will need to feel safe using this stretch of road.

Attach a document to your submission

Public Consultation - Changes to Speed Limits

COMPLETE #134

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Item 6

Submission No. 134

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

I would like for the speed limit to be reduced so that my girls can bike safely to school thanks alternatively it would be great to see the cycle pathway extended out past Middle Road Gilpin Road intersection cheers

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

You need to start considering the flow on impacts these decisions have on other areas. Such as the Hawke's Bay communities inability to go 100km on the motorway which causes drivers to become extremely impatient resulting in dangerous driving practices. We are seeing a lot of this now where people in Hawkes bay are on the motorway going 70-80km's with a big line of cars behind them.
Slowing the speed may appear to increase the safety of that particular area but you are just moving the issue to somewhere else. I feel you are better to invest in educating drivers to be more aware of their surroundings and driving ability.

Strongly agree
There are many speed related accidents on the stretch of road between havelock north and longlands road I drive it daily and every time I am on the brigde at gilpin rd or the bridge close to longlands road i feel very unsafe as see car taking both corners at 100k
Please sit near the bridge at longlands te aute rd and watch how dangerous it is!

I would like to see it 80km from havelock to the bridge pa end of the longlands road
Busy packhouses down longlands road!
Thanks
Cameron

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

I believe that speed is not the only cause of road accidents - road rage and carelessness are also contributing factors. Lowering speed limits will cause more built up frustration at traffic and could result in even more careless driving and accidents.

TOO MANY BIG TRUCKS USING THIS ROAD NOW AND IN THE FUTURE. WITH FURTHER DEVELOPMENTS.

Attach a document to your submission

Item 6

Submission No. 160

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

LOWER THE SPEED LIMIT AS PEDESTRIANS DO NOT HAVE SAFETY BARRIERS BETWEEN THEM AND THE ROAD SAME GOES FOR CYCLISTS,TOO MUCH TRAFFIC ALONG THERE AND TRUCKS.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

TOO MUCH TRAFFIC NOW.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

TOO MUCH TRAFFIC. GOING TO GET WORSE.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

THIS IS MORE LIKE A DRIFTING TRACK. HAS TOO MANY VEHICLES ON IT TO JUSTIFY THE CURRENT SPEED LIMIT AND TIME LOST WILL BE MINIMAL.

Attach a document to your submission

Item 6

Submission No. 160

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

TOO DANGEROUS IN AREA THERE.MORE TRAFFIC COMING UP IN FUTURE.

Attach a document to your submission

*** Please indicate whether or not you wish to speak to your submission at a Council Meeting.**

Agree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Our family has lived at this address for around 15 years, in that time we have seen and heard vehicles, (cars, Truck, motor bikes) come into town and leave town doing horrific speeds.
I would welcome a speed reduction for this road. The school crossing for Lucknow School is outside our house, the amount of near missis that have been witnessed I cannot believe that someone has been killed there.

We often have police parked within this area and they would pull up cars within a matter of minutes of arriving.

I would also be in favour of a speed camera put along this stretch of road, to deter the excessive speed that cars do along this road, entering and exiting the Havelock North city limits.

Disagree

Item 6

Submission No. 178

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

i will say the same thing about all of the proposals.
the speed does not need to be lowered.
the speed is not the problem.
the drivers are the problem.
look at it this way.
if traffic loads are increasing, its a stupid move to lower the speeds. this will just increase issues including stress and impatience.
you do not want stressed out and impatient drivers on the road, these two factors will more than like cause neglect of all safe driving practices.
if anything the roads should either remain the same speed, have the speed raised by upto 10% or if possible, the roads upgraded to dual lanes to accommodate for the extra traffic flow.
LOWERING THE SPEED LIMIT WILL NOT SAVE LIVES, ITS CERTAIN TO TAKE MORE LIVES.
STOP BLAMING THE ROADS AND SPEED LIMITS, START BLAMING THE PEOPLE BEHIND THE WHEEL!
ROADS DO NOT MAKE ANY DECISIONS, SPEED DOES NOT MAKE ANY DECISIONS.
WE, HUMANS ARE THE ONES WHO MAKE DECISIONS.

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

i will say the same thing about all of the proposals.
the speed does not need to be lowered.
the speed is not the problem.
the drivers are the problem.
look at it this way.
if traffic loads are increasing, its a stupid move to lower the speeds. this will just increase issues including stress and impatience.
you do not want stressed out and impatient drivers on the road, these two factors will more than like cause neglect of all safe driving practices.
if anything the roads should either remain the same speed, have the speed raised by upto 10% or if possible, the roads upgraded to dual lanes to accommodate for the extra traffic flow.
LOWERING THE SPEED LIMIT WILL NOT SAVE LIVES, ITS CERTAIN TO TAKE MORE LIVES.
STOP BLAMING THE ROADS AND SPEED LIMITS, START BLAMING THE PEOPLE BEHIND THE WHEEL!
ROADS DO NOT MAKE ANY DECISIONS, SPEED DOES NOT MAKE ANY DECISIONS.
WE, HUMANS ARE THE ONES WHO MAKE DECISIONS.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Our family very strongly support a reduction of speed on East Rd.

A significant number of children bike to school by going through the Rockwood Place alleyway and then have to cross East Rd to get to the pathway up to school. It is dangerous for pedestrians to cross at the entrance to Rockwood Place, as
1) it is a very busy road (given it is the main access to Clifton, Te Awanga and the shops)
2) cars are coming out of a 100km zone and so are still travelling at high speed while they decelerate
3) the intersection is now a lot more complicated as there is a new subdivision/street (Cape Grove) opposite Rockwood Place with around 20 houses being built.

In fact, given children bike along the pathway right next to East Rd, we would like to see the speed limit apply to that whole stretch of East Rd (up to Park Hill road) so that it is safer for kids and parents walking up to school.

In addition to the speed change we would also like to see a pedestrian crossing put in so school children can safely cross East Rd to get to the pathway. It would also benefit other members of the public who are walking through the Rockwood Place alleyway to go up to the Cape Corner shops.

Spend money on fixing roads not lowering the speed. Everytime this happens there is a better solution that requires more money so you choose the cheaper one. With modern cars we should really be talking about increasing speed limits, everything a speed limit is based on is car safety, so with safer modern cars speeds should be able to go up. But with our road system, that you refuse to invest in, you decide the opposite. It's honestly ridiculous and going backwards not forwards. How does that look for hawkesbay. The region where we refuse to move forwards.

The reduction in the speed limit on these roads is not the answer to the problem we have in this region . We need the traffic to flow more .. cars are so more efficient these days... speed is not the issue .... in attention is the issue the more you slow people down the more frustrated people become and and more in attentive and distracted they become . You need people to think about the conditions and the road they are driving on and start making their own choices hence becoming better drivers .
