Public Consultation - Changes to Speed Limits

COMPLETE #201

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Item 6

Submission No. 201

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

* Please indicate whether or not you wish to speak to your submission at a Council Meeting.

No

Item 6

Submission No. 207

Public Consultation - Changes to Speed Limits

COMPLETE #208

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

The Church on this road would be the primary reason for the drop in speed limit. Under the circumstances it is over the top as the church is used about 1 hour a day for only 65 days of the year. Given that the other 300 days it is barely used at all it seems an overkill.

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Agree

Item 6

Submission No. 210

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

I live in Bellerby Lane which is currently in the 100km zone, just outside of the 50km zone. I see on a daily basis vehicles failing to slow down to 50km until after they have passed the 50km sign as they travel down Kereru Road towards SH50. Often those vehicles are load bearing trucks. The issue with this is that this area is a higher density residential area and that is only due to increase with the proposed subdivisions. There is also a school in that area. I do not believe it is acceptable that the average speed is 55-59km past a school.

On more than one occasion, when I have exited from Maraekakaho School with my children in the car to travel to Bellerby Lane, I have had near misses with traffic coming from Kereru Road which is obviously travelling faster than 50km. Visibility is sometimes obscured because of parked cars at the school and it is therefore crucial that vehicles travel to the 50km limit.

Similarly, when I have exited Bellerby Lane, I have encountered traffic speeding up before reaching the 100km sign when coming through Maraekakaho village towards Kereru.

I believe that if the 50km area is increased as proposed that it would significantly reduce the number of vehicles travelling over the 50km limit that is currently imposed past the school.

I do not believe there would be any significant detriment to road users. It would not unduly affect travel time and would not affect traffic flow.

It could only be of benefit to our community and particularly to our children.

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

This is a newly designed modern road. Its generous width, field of view, and lack of properties being serviced directly off it present the opportunity for a safe higher speed limit.
Proposal that the speed limit of Te Ara Kahikatea between the State Highway 2 roundabout and the new roundabout at Whakatu Road be 100kmph, where as the speed limit of Te Ara Kahikatea between the Pakowhai Road roundabout and Whakatu Road roundabout remain at the 80kmph speed limit.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Agree with a reduction but to 70km/hr is sufficient.

Attach a document to your submission

Item 6

Submission No. 218

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

take the lower speed limit out to Heathcote Rd but retain at 100km/hr from there to the roundabout

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Have no comment as not familiar with this one.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

50km/hr far too slow and will lead to much frustration. 70km/hr is a better proposal given the proposed future development of a retirement village on the river side of Te Aute Rd just out of the boundary (if my memory of reading this is correct).

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Propose maintain the 100km/hr from the roundabout on SH2 Mangateretere through to the railway line, then happy to see 80km/hr from there to the roundabout at Pakowhai Rd.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Not familiar with this so have no comment

Submission No. 224

Public Consultation - Changes to Speed Limits

COMPLETE #225

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Problem is not with speed limits but with arrogant, ignorant badly taught drivers with lack of driving skills. Another case of wanting to pander to the lowest common denominator. Spend money on ensuring that the driving test prepares drivers for driving to the conditions and roads, not changing conditions to accommodate bad drivers.

Attach a document to your submission

*** Please indicate whether or not you wish to speak to your submission at a Council Meeting.**

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

I've been travelling this road for 20 years to and from work. there is nothing wrong with the speed limit, apart from council trying to reduce all speed limits, why? Same as all councils. The problem is the road itself is in a disgusting state. Especially from York Rd to past Timu Timbers, Patch up after patch up! Fix the road and leave the speed alone, keep the traffic moving. Stop wasting money on this stuff and get onto your core services, get our water drink worthy without chemicals, same as the water you are giving away. Cycle lanes are making the roads more dangerous, less room for vehicles with over capacity for cycling which are not being used as promised. Slow all roads down and we'll all have to bike, IS THIS THE PLAN ?

Reducing the speed limit is an ill-thought option. Does the council not realise that we are now in 2019? Our lives are more busy than ever and we expect infrastructure to be able to cope, that's why I lawfully pay thousands of dollars in tax. I say, instead of reducing the speed limit, fix the road. Instead spending ridiculous amounts of money on lane barriers, make it four lanes. If NZ constantly reverts to knee jerk behavior, it will not only continue to weaken our economy and increase poverty on every area and ultimately reducing our power as a 1st world nation., And, with the imminence of technology in our roading systems, New Zealand and our local councils better get their act together so we can speed up...not slow down!

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

I support fully all of the proposed changes to the current speed limits as per the Draft Statement of Proposal. My support for lower speed limits is in part due to the speed limit reductions implemented previously, which have been totally successful in making our local roads safer for all people using them. Local driver-behaviours have noticeably improved.

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

How ridiculous, Te Aute Road 230 meters north of Gilpin Road - you've gotta be joking!!
The speed of late Church goers on Saturday mornings re-enforces this!! How many killed on Te Aute stretch to Gilpin in past 40 odd years - how many injured?? How many crashes??
How many near misses?? Do you know?? We do!! after living here over 40 years. We are the ones disturbed at nights due to accidents.
Speed Te Aute Rd until AFTER Gilpin MUST be 50km/hr.
Save Walkers-Joggers-Cyclists and children - We see them daily!!

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Item 6

Submission No. 256

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Very dangerous as a cyclist cars doing 100ks

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Item 6

Submission No. 256

* Please indicate whether or not you wish to speak to your submission at a Council Meeting.

No

Public Consultation - Changes to Speed Limits

COMPLETE #257

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Item 6

Submission No. 257

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Should be reduced to 80kph

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Should be 100kph, this road is simply an extension of a 100kph approach road. The road can host 100kph, has wide shoulders, pull over area's and is a major connection route to the expressway

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

After the 7th crash on Te Aute Road, on the stretch between Richmond Road and St George's/Mt Erin, tonight which was a head on a lucky no one died, you should be seriously looking at reducing the speed limit to 80km for the duration of Te Aute and Longlands Road. How many crashes and death do there need to be before something is done. May also stop it being a speedway at the weekends.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Would prefer that the whole of Te Aute Road reduce to 80km

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Item 6

Submission No. 266

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

I agree to reducing the speed on this stretch of road but not down to 50km. 80km would be a much more sensible speed along that road because of the number of pedestrians and cyclists using the limestone path on this road.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

A reduction to 70km/hr would fit this road more into line with like roads on fringe of city with their lower density of housing.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

These types of roads should remain at the 100km/hr limit. This is because we should be educating people to drive to the conditions. You are trying to include this outer road into a controlled mix of lower speeds - that are often very confusing, to take all thinking of road conditions away from the motorist. This is an overkill.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

I could see the sense in reducing to 80km/hr or even 70km/hr.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

I could see the sense in reducing to 80km/hr or even 70km/hr. Again this is an overkill.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

I thought that it already was!

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Definately not. This road is fine as it is and comes into the category of common sense and reasonable care. Why have these developments been allowed so far out of town? Already there is a restriction in the school area - and so there should be, but the current limit sign to open road is set right.

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

While I disagree with the proposed speed reduction, I do agree that a speed restriction from Gilpin road to the existing 50 kph zone should be imposed. I believe that the current change from 100 kph to 50 kph is too sudden and comes right on an intersection that services both a school and preschool zone with a pedestrian crossing manned by school pupils twice a day during school terms.

I would like to see the speed limit reduced from Gilpin road which in itself is a difficult intersection with turning traffic and on a sweeping bend, I believe that 70 kph would be sufficient.

Thank you for your consideration.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

I would see agree in reducing the speed to 70 Km/Hr but disagree all the way down to 50 km/hr.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

These 80 km/hr chances are only taking place because we are not putting any investments into our roads. We have a council that wants growth and grow the city you need to invest in roads. Do not go for the sticking plaster fix. I spend most of my day on these roads and by moving the speed limit to 80 changes the traffic speed to 60-70 km/hr. Also agree with Greg Murphy up skill the drivers and habits.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

These 50 km/hr chances are only taking place because we are not putting any investments into our roads. Wider roads and passing lanes to help with traffic follow and different driver speeds. We have a council that wants growth and grow the city you need to invest in roads. Do not go for the sticking plaster fix. I spend most of my day on these roads and by moving this speed limit will not make different other than a hole lot of more tax on Havelock North people from tickets. Bad drivers will still make errors Also agree with Greg Murphy up skill the drivers and habits.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Great new road to help link Havelock North to the express way to the airport. This would be a great road at 100km/hr with a 80km/hr area close to the railway crossing and Whakatu industrial area.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

70 km/hr would be good

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Access to Village Baptist Church, which happens not just on Sundays but fir funerals, weddings, Mainly Music, Youth Group and Bible Studies etc, causes serious traffic issues, especially with cars turning right into the car park. There have been many near misses with backed up traffic entering and leaving VBC. This problem will increase with the building of the retirement village across the road from VBC. Please reduce the speed limit.
Thanks
Zanita

Item 6

Submission No. 292

Public Consultation - Changes to Speed Limits

COMPLETE #293

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Lowering speed limits is counter productive as people driving slowly do not pay attention and turn round to talk to other people in the vehicle, use their phone or are otherwise distracted. Driver education is needed.

I live on Bellerby Lane and with kids playing in the street it definitely needs to be 50km/hr (safety reasons). The kids also have to cross Kereru Road to go to Maraekakaho School so cars need to be going slower along there.

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

This is a semi rural road with very little residential or business property. It is however a major access road from from the city to the Expressway. Slowing down traffic will only cause delays.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

This is a country road predominantly straight in good condition with very well signposted bends in it. There are very few properties accessing it. There is no reason to have a 50km limit on a perfectly good road like this. A reduction in limit will likely be ignored.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Agree

Disagree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Why is there no 'in between' speed. Such as 80km? There is a huge difference between 100km and 50km in practical driving terms of speed. Lowing the speed allowance smacks of the council abducation of responsiblity for maintaining useable and safe roads.

Item 6

Submission No. 301

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

This area is not residential, it is industrial. The road is wide with good visibility so what is the necessity to reduce the speed ? If the council wants to ensure safer roads they should start with road maintenance and ensuring the road edges are safe to allow vehicle's to pull to the left and allow traffic to flow.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

I only disagree with this because my preference would to change the speed to 70km for this area and then into the existing 50km.

Item 6

Submission No. 301

Public Consultation - Changes to Speed Limits

COMPLETE #302

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Agree

Item 6

Submission No. 303

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Good Morning

I would agree with this proposal subject to the retirement village going ahead.

But, in my opinion, this proposal ignores the main issue concerning Te Aute Rd. I've only lived in this area for 6 years, but in that time there have been 2 fatals and a fair few injury and vehicle damage accidents on the area Te Aute Rd/Longlands Rd between HN and Railway Rd. I have children attending school in HN and drive the stretch of road from Mt Erin to HN frequently - going in the other direction Mt Erin to Railway Rd is a death trap and I actively avoid this road during times of high use.

That this stretch of road has been allowed to evolve into what it is reflects no credit on council or police.

The sweeping corner on the south side of Gilpin Rd with the nearby bridge are dangerous, you only have to watch some of the north bound cars navigate round it whilst trying to stay close to 100kph.

Mt Erin/St Georges into Te Aute is an 'X' intersection on a sharp corner at 100kmh. Having used this intersection on pretty much a daily basis I've seen considerable confusion from drivers attempting to enter Te Aute from either Mt Erin or St Georges Rd when faced with a vehicle on the other side of the 'X'. The shape of the corner means that traffic exiting St Georges into Mt Erin or turning right into Te Aute have visabilty issues seeing southbound traffic on Te Aute.

The Longlands / Te Aute corner is frankly dangerous - travelling north on Longlands I've been forced off the road onto the shoulder a couple of times by traffic turning right from Te Aute, I think that the angle means that they just don't see the traffic on their left or maybe they just don't care.

Riverslea / Longlands - picking panelbeaters love this corner, I've seen one accident and the results of quite a few minor incidents on this one.

Mindful that this area presents a number of challenges to you, specifically;-
- the socio-economic mix of many residents (lots of older and less safe vehicles on the road)
- older and less confident drivers who simply won't overtake very slow traffic (likely to get worse if the retirement village goes ahead)
- high drug use and the apparently ignorant/impatient/arrogant attitude of a sizeable portion of drivers in this region
- the number of large agricultural vehicles that are not able to travel at the speed limit that impede the flow of traffic

Can I therefore suggest the following:-
- 50kph as per your proposal (assuming the retirement village goes ahead)
- Te Aute/Longlands to Railway Rd 80kph (if you drop this to 50kph then you are going to be creating a recipe for head on accidents by traffic attempting to get past bottlenecks created by agricultural vehicles)
- Te Aute 70 or 80kph for a 150ish metres before the Longlands/Te Aute intersection

Thanks for the opportunity to make a submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

I work on this stretch of road, and find the 100km speed limit to fast for entering & exiting premises along here. There is a lot more industry now - with heavy vehicles that cant move quickly.

this is greatly needed as the number of children using this road to walk/bike to school is increasing. Can we please have a footpath extended to where this speed limit is extended too also? the speed limit change alone is not going to make it safe enough for our children and all residents. there is an expected huge increase of logging trucks and shingle trucks in this area and the residents need to be well off the road when walking down this stretch.

I have already submitted but missed my comments.

Along with looking at the speed limit, there needs to be a review of the Gilpin Rd and Te Aute Rd intersection. If you are travelling towards Havelock North along Te Aute Road, any cars turning right onto Gilpin Rd creates a dangerous situation as they pull to the centre line. There is not enough room to safely pass them on the left.

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

As someone whose son bikes this road each day I fully support this proposal especially with the number of trucks using this stretch of road.
More importantly there should be a decent amount of sealed road on the left of the white lane so cyclists are away from these trucks and the draft they create as they pass which can be quite scarey.

As an aside from this -the crossing on the town side of York Road should have a sign saying watch for pedestrians /cyclists . My son has been off work for 8 weeks after being hit by a car that came around the corner from York Road,

Also and this is for anyone who lives in the Paki Paki area, the road particularly between the school and Mangaroa Road has really no shoulder to ride on and myself as a cyclist will not ride on this stretch of road as it is too dangerous. It is basically an extension of the expressway with LOTS of Traffic.

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

I have moved in to the new subdivision just off east road. Our property is located just after the speed limit change from 50kph to 100kph . As soon as many drivers go over the speed bump they accelerate instantly. I see a lot of dangerous and irresponsible driving here on a regular basis. There is a cycle/walkway path along east road which many people use for recreation , including children walking to school. There is also a considerable amount of traffic going into and coming out of the farm yard zoo , so I feel that a reduction in the speed limit along this section of the road would be a wise decision.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

No

Item 6

Submission No. 318

Public Consultation - Changes to Speed Limits

COMPLETE #319

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

The speed reduction should extend from Havelock Nth boundary all of the way to Gilpin Road, thus the whole straight on Te Aute Rd leading into and out of Havelock North will be 50km/hr.

I am the Administrative Deacon of Village Baptist Church which is situated at 147 Te Aute Rd, that is just inside the proposed new speed limit boundary. Our church believes that the proposed change is not enough and that we need more protection from speeding vehicles. Our church has an average attendance of approx 250 persons on a Sunday morning and would have approx 10 general meetings a week, some being night events and includes such gatherings as weekly youth groups, old people gatherings, funerals, weddings etc. Further we have 4 staff who work at the premises and many visitors on any given day. Upon turning into and exiting our premises, we are faced with vehicles travelling at 100km/hr and having personally been on parking duties we have witnessed many near misses. Further travelling north along Te Aute Rd towards Havelock and so wanting to turn right into our premises, there is not enough road width and vehicles under pass on the road edge and grass or risk it by passing the right turning vehicle early to avoid having to wait. With the old peoples home, this will all get worse.

There is little point in ending the proposed speed restriction 230m north of Gilpin Rd because that would make the speed limit boundary only a few metres south of our entrance (see your map where the red line ends and refer to our premises) so people traveling north would still have issues. We suggest that the speed reduction is extended all the way to Gilpin Rd and thus the whole straight leading into and out of Havelock Nth is much safer. And the Gilpin Rd intersection and curve provides a nice natural point for the speed reduction.

Thank you.

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Not only do I support this but would respectfully ask the Council to consider extending the 50 km/hr south beyond the Gilpin Road intersection to take into consideration the 65 km/hr advisory sign on the corner south of Gilpin Road just prior to the bridge. It has in the past been the scene of at least one fatal vehicle crash which from memory was due in the main to speed.
As a member of Village Baptist Church I regularly work at the church in various roles. Firstly as a parking warden on a Sunday morning. I am appalled at the speed some drivers travel at along this section of the road, well in excess of 100 km/hr. I have observed vehicles coming from the south heading towards Havelock North having negotiated the bend near Gilpin Road then the driver of the vehicle seem bent on accelerating as fast as they can and when they pass the church they are exceeding the speed limit only to see the driver brake heavily before the 50 km/hr area of Havelock North.
During the week I work in the church grounds and while I at times can not see the road I hear vehicles being accelerated as they head north or south in what I would describe as an excessive manner in order to reach an excessive speed.
I am also concern for cyclist and walkers who use the road especially cyclists. There is not a lot of room due to the width of the road. A cyclist or walker hit by a vehicle might survive if the vehicle is travelling at 50 km/hr but they will most likely never survive a collision at 100 km/hr.
As a retired Police Sergeant I still hold to what the Police want to do and that is to make New Zealand the safest Country in the world. I would like to see Hastings as the safest city in the world. Having stated that can I ask Council to consider constructing a path on the side of the road for the usage of cyclist, walkers and the future occupants of the proposed retirement complex.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

I strongly support this submission. We are the last house before you leave the residential area of the village. Vehicles see it as a point (if not earlier at Upham) to increase their speed to 100km, well before they have reached the speed sign. And coming into the village they are only just beginning to slow down at this point. We have a young family and pets, as do our neighbours beside and across the road from us. There is a school crossing just after Upham and cars are often still going at approx 70km at this point, only just braking when they see the signs. Not to mention that often on winter mornings there is sun strike looking towards the village (and crossing) which makes the speed of these vehicles entering the village especially dangerous. Trucks come thundering in and on occasion I've had to ring a trucking company to tell them. The bridge has a small lip on it and every time the trucks speed over it and drop down it makes the whole house shake. With the proposed rest home going in along beside us the need to reduce the speed limit is even more imperative. Not to mention the number of dangerous accidents that have occurred near the St Andrews/Te Aute Road intersection. Please please reduce the speed limit down and then make sure that it is enforced, habits are so hard to break. Thank you.

Item 6

Submission No. 331

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

I oppose the speed limit changes as proposed and disagree with the reasoning proposed by council in the Council 'Draft Statement of Proposal'.
I understand the importance of traffic safety, but I believe the proposal fails to recognise the need for an efficient transportation network for the wider rural catchment and economy. Nor does the Draft proposal provide sufficient information regarding the subdivision form proposed in the area or any crash records for the stretch of road supporting the speed reduction.

It is my submission that changes be made to the proposal which achieve both council's outcomes of a lower speed environment, while still maintaining a reasonable efficient transportation route. To achieve this there are three components that I strongly recommend council should adopt:

1- Reduce the length of the 'reduced speed environment' as proposed -
The speed limit change as shown is approximately 180m from the newly consented 'Blackwood lane' servicing the future lifestyle development on the northern side of Maraekakaho road. I submit that this lead in/location of the change in speed environment shall be as close to the future 'Blackwood lane' as possible, to reduce the inefficiency to the wider rural community using this road.

2- Increase the proposed speed limit for the proposed and existing stretch to 60km/h -
This area is to be developed with low density, car depended lifestyle sites and I do not consider the 50km 'residential area' speed limit suitable. As a minimum I proposed that the council adopt the NZTA Speed Management Maps recommendations and increase the speed limit for this stretch of road to 60km/h (including the existing Marakakakho 50km/h section). The road is very wide, has excellent sight lines, and any pathways are well separated from the carriageway with relativity low usage.

3- Variable speed limits change in School Zone (40km/h during drop off and pick up times) -
Although I support a higher speed limit to that in the proposal as drafted for Maraekakaho, I also propose a speed limit reduction (via digital speed limit signs) that is directly related to the incoming and outgoing of school students at Marakakaho School. This would allow for the efficient use of the transportation network (proposed 60km/h) when there is no risk to children, and 40km/h when there is high traffic volumes and children in the road environment.

It is also proposed that if the speed signs are relocated that the physical construction includes kerb build outs and landscaping to provide a 'gateway' to the village (similar to that proposed for Te Aute Road, Havelock North – outside Rayman Healthcare proposal).

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Proposal 5: Te Ara Kahikatea Should be 100kph along with Pakowhai Rd. The main link between Napier and Havelock should be a 'main road' at 100kph. The above roads are wider and in better condition than a lot of other 100kph in the area and there is no reason why they can't be.

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

I travel this road every day, sometimes at busy times, sometimes in the early hours when I am on call for work. As with any other road, traffic conditions vary with time and the day of the week and, as a result, achievable speeds also vary accordingly. In all my years on this road, I have always seen the mixed traffic coexisting well and prevailing driving speeds appropriately matched to the conditions.

Why, then, would the Council propose to fix some non-existent "safety" issue by applying a blanket 24/7 speed limit reduction to this road? Actual speeds are already at 80 km/h or less when appropriate; for the other 80-90% of the day the lower limit would be an unnecessary and inconvenient imposition which will achieve nothing towards road safety. Surely, if the Council feels the need to be seen to be doing something, its energies should be invested in evidence-based interventions. If you want some ideas, sit at the roadside at 7 a.m. on a foggy morning and see how many drivers don't use their headlights; sit there on a frost morning and count the cars without transparent windows. Target actual problems. Thank you.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

It is a straight road!

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

This is a brand new main road the Council has been involved in: are you now saying it was only built well enough for you to endorse an 80 km/h limit? That would be quite ridiculous.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

I could understand the limit being 50 km/h as far as Bellerby Lane. Beyond that, it's a straight road with fields and orchards beside it!

Public Consultation - Changes to Speed Limits

COMPLETE #335

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

It's Drivers not speed limits that cause accidents. If two cars hit head on I'm sure the Damage will be the same whether it is 80 or 100 kms/hr

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Same reason as in proposal 1

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Same reason as in proposal 1 & 2

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Same reason as in proposal 1,2 & 3

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Same reason as in proposal 1,2,3 & 4

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Disagree

As a professional who travels from town to rural areas for work every day of the working week the proposed speed limits will add hours to my travel time each month. Speed limits are not the answer but better infrastructure is. Speed does not kill but frustrated or poor drivers do.
With the increased traffic on the roads now I expect that the road toll will increase with further restrictions on speed.if townies want to live in the country then they should have consideration for the rural folk who work there and don't have all the time in the world to catch up with their friends in town for a latte.

Public Consultation - Changes to Speed Limits

COMPLETE #343

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Ridiculous!!!! Why??

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

I travel this road every weekday and the traffic is already slow - a lot of people who drive can't read and don't see the 100km sign. This is extremely frustrating to a lot of drivers and this is when people take risks and overtake the slower vehicles. Traffic backs up behind these slow vehicles and it is these slow vehicles that cause the most problems on our roads, not the ones who travel to the speed limit. Frustration causes people to overtake these vehicles and not always in the appropriate places. Keep the speed limit the same. It is the drivers who need educating, not the speed limits being reduced. If you can't read, you shouldn't be driving. There is plenty of visibility in this area and the road is good so there is no need to travel below the current speed limit of 100km. Reducing the speed to 50km will probably cause more accidents.

My partner drove tow trucks in this area for 23 years and he doesn't recall very many incidents or accidents in this area. If it ain't broke, then don't fix or change it.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

This is a new road and the visibility and road is good. No need to restrict the limit to 80km. This will also cause frustration and people will take silly risks in order to overtake the slow vehicles. Driver education is what is needed. If you can't drive to the current limits you shouldn't be driving on our roads. There are no residential driveways off this road so therefore there should not be any issues in this area.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

There isn't any more residential driveways in this area than there was 30 years ago and in the past when I was a tow truck driver for 23 years I don't recall many, or any accidents in this area.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Why reduce this area when it is not an issue and traffic flows freely.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

I feel there is a need to reduce this road to 80km, but definitely not to 50km. This is just ridiculous.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

I have lived in Havelock North for about 33 years and travel that road every morning and night. I do not feel the need to reduce the speed as it is not a speeding issue. If anything, the accidents in this area are due to driver error and poor driving skills. Cutting the speed limit in half will only piss people off and will they will take stupid risks and make poor decisions when trying to overtake. This will lead to an increase in accidents in this area.
One thing that HDC should understand is that the country and this region will never be accident free. There will always be people behind the wheel who shouldn't be.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Why put in a perfectly good road with no residential driveways and then restrict the speed limit to 80km when it should be 100km to start with.
Good visibility, good road - why not 100km??

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

Due to the general public's ability to maintain a safe speed, lowering the speed to 80, the speed people automatically maintain will be less than 80, probably 60-70.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

Traveling at ~90kmh, the 200m would be covered in around 8 seconds, some drivers traveling down this road have not very good reactions and could cause potential nose-tails

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Disagree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

This is a brand new road, made to link Havelock North and Napier, if New Zealand drivers cannot safely drive up to 100kmh on a road of this calibre it really brings into question of their driving ability.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

With the increase of traffic transiting through Maraekakaho I can see this reduction in speed being sensibly safer

I cycle a lot on this stretch of road, and it can be quite busy with limited shoulder and a lot of driveways, so definitely 100km/hr is much too fast for safety considerations, so I support the reduction to 50km/hr.

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

We are firmly in favour of the proposed reduced speed because of the presence of people commuting to work by bike in the Irongate Road East area and also biking recreationally in that area. Maraekakaho Road is also a preferred route to Bridge Pa from the hospital and other work places in the western side of Hastings.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

We are firmly in favour of the proposed reduced speed because of the numbers of people, especially children, travelling to Haumoana school using East Road. While there is a separated path this is not enough to ensure safety. Also, there is a significant amount of recreational biking in this area. This appears to be increasing and there is also some cycle commuting between Haumoana and Hastings/Clive/Napier on East Road as this is a direct route to Black Bridge. The new residential subdivision will significantly increase the numbers of people walking and biking. It should not necessarily lead to increases in vehicles but because of lack of public transport and lack of promotion of active transport inevitably population growth leads to growth in vehicle numbers. This increase in vehicular traffic means greater efforts will be needed to ensure safety of people walking and biking – with reduced vehicle speed being the key safety intervention.

Attach a document to your submission

Do you support Proposal 4 to reduce the speed limit on Te Aute Road - to a point approximately 230m north of the intersection with Gilpin Road from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 4 please do so in the text box below. Alternatively you can attach a document to your submission below.

We are firmly in favour of the proposed reduced speed because of the need for safer cycling on the roads south of Havelock North. Longlands Road East, Te Aute Road, St George's Road South and Middle Road and other roads in the vicinity are very popular for recreational cycling. As the Draft Statement of Proposal notes, there is already concern from the NZ Police about high vehicle speeds and there is already a significant collective and personal risk. The risk will be exacerbated with the growing urbanisation of the area (e.g. proposed retirement village). There are often very limited shoulders on these roads and current vehicle speeds often exceed the legal speed limit. While we support the extension of the 50 km/h limit to Gilpin Road this does not go far enough and needs to extend to School Road as Birdwoods Gallery is a popular destination within a very short biking distance from Havelock North and Hastings.

Attach a document to your submission

Do you support Proposal 5 to make the speed limit on Te Ara Kahikatea 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

We are firmly in favour of the proposed reduced speed for He Ara Kahikatea because of the need for safer commuter cycling between Hastings and Havelock North and Whakatu and Napier. In particular, commuters will prefer to use roads rather than the off-road paths. Safety of cycle commuters needs to be given a much greater priority by road controlling authorities. It is without question that this change should happen because, as the Statement of Proposal notes, the Notice of Requirement for the new road construction envisaged an operating speed of 80km/h and the road was designed based on this operating speed.

Attach a document to your submission

Do you support Proposal 6 to reduce the speed limit on Kereru Road - to a point approximately 580m west of the intersection with Bellerby Lane from 100km/hr to 50km/hr?

Agree

If you would like to add information to support your submission for Proposal 5 please do so in the text box below. Alternatively you can attach a document to your submission below.

We are firmly in favour of the proposed reduced speed for Kereru Road because of the recreational cycling in the area and the increased urban development.

Public Consultation - Changes to Speed Limits

COMPLETE #351

Due to significant changes associated with the development of land adjacent to the road corridor, Hastings District Council is reviewing the speed limits, either in their entirety or on sections of the following roads: Irongate Road East, Maraekakaho Road, East Road, Te Aute Road, Te Ara Kahikatea and Kereru Road.

Details of the proposals are detailed below.

- You may comment on as many or as few of the proposals as you like.
- Questions marked with an * indicate mandatory fields.
- If you wish to speak to your submission in a Council meeting you will be prompted for further contact details.

Submissions close midday June 27.

Do you support Proposal 1 to reduce the speed limit on Irongate Road East - between the cul-de-sac and Maraekakaho Road from 100km/hr to 50km/hr?

Disagree

If you would like to add information to support your submission for Proposal 1 please do so in the text box below. Alternatively you can attach a document to your submission below.

Attach a document to your submission

Do you support Proposal 2 to reduce the speed limit on Maraekakaho Road between York Road and the SH50 roundabout from 100km/hr to 80km/hr?

Agree

If you would like to add information to support your submission for Proposal 2 please do so in the text box below. Alternatively you can attach a document to your submission below.

As a resident living on Maraekakaho Road, we witness daily disregard of speed limits particularly Nth bound traffic & in particular trucks /heavy vehicles.
I believe Maraekakaho Road would be safer if the speed limit of 50KM from Stortford Lodge lights was continued to a point just after Heathcote Road and then as proposed, 80 KM from this point to SH50 Roundabout. Gradual speed changes as it currently stands does little to encourage drivers to significantly adjust their speed.

Attach a document to your submission

Do you support Proposal 3 to reduce the speed limit on East Road - to a point approximately 260m west of the intersection with Rockwood Place from 100km/hr to 50km/hr?

If you would like to add information to support your submission for Proposal 3 please do so in the text box below. Alternatively you can attach a document to your submission below.

50km Max would be better all the way Healthcote to stortford.
These speed limits need to be envorced as currently the limit on York is 80km but there is little signage and 90% of drivers travel 100K.
Should be 50km on York from Maraekakaho to roundabout.
Some form of island/chicane on both these sections of road would help reduce speed.

80 good, 50 bad.

I feel Te Aute & Longlands Rd from Havelock North to Railway Road should be 80 rather than 100 (too many intersections, orchard work, school kids, residents and narrow bridge). But down to 50 just won't work on such a short section of road and most likely increase accidents as some ignore it and others don't.

Submission #363 No Name

NEW ZEALAND POLICE
Ngā Pirihimana o Aotearoa

7 June 2019

Gavin O'Connor
Acting Traffic Engineer at the Council
Email: gavino@hdc.govt.nz

Dear Gavin

Hastings District Council: File ref: LEG-02-34-19-538
Proposed Speed Limit Amendments to the Speed Limits Bylaw 2012

Thank you for the opportunity to comment on the proposed review of the Speed Limits Bylaw and on behalf of Eastern District Police I make the following submission.

Within the Draft Statement of Proposal, I note in the Introduction & Background:

B.2 - The rules and policies for speed limits and the method of calculating speed limits are set out in the Land Transport Rule: Setting of Speed Limits 2017. This rule requires roads to be assessed against the NZTA Speed Management Guide.

Additionally, by way of explanation of proposed changes:

Hastings District Council: Speed Limit Review 2018-2019 – Explanation of Proposed Changes
The statement of proposal details proposed speed limit changes associated to land-use change and growth only. These are roads which are currently, or will be shortly, undergoing significant change associated to development of the land adjacent to the road corridor.

It is therefore of concern to Police that Hastings District Council have not adopted the Speed Management Guide primary principle of:

1.1.3 Priority areas for speed management.

Whilst Police understand that Hastings District Council propose to further review speed limits with regards to "public requests" following this consultation, it is disappointing that only following that will the Speed Management Guide principle be addressed.

Police are therefore disappointed that the Hastings District Council have prioritised growth over safety and whilst having no objections to the proposals submitted for consultation, lament an opportunity lost to better protect our community now.

Yours sincerely

Superintendent Tania Kura

Attention: Gavin O'Connor

Dear Gavin

Subject: Proposed Speed Limit Changes – Draft Statement of Proposal

Thank you for you letter dated 20 May 2019 with respect to you proposed revision of speed limits on selected roads within the Hastings District.

The Taupo District Council have no cross boundary local roads adjoining with Hastings District and therefore have no contribution or comment to make with the proposed speed limit changes.

Thank you for the opportunity to provide comments and please contact me if you require further support from Taupo District Council.

Kind regards

Claire Sharland

Dear Sir/Madam

RE: Hastings District Council Proposed Speed Limit Amendments to the Speed Limits Bylaw 2012

Thank you for consulting with the Automobile Association.

The Hawkes Bay/Gisborne District Council of the Automobile Association represents circa 65,000 members. We are advocates for our members and in representing our members the Association seeks a transport network that is safe and efficient for its users.

We would like this submission to be given the appropriate consideration it deserves. We feel prior submissions made to roading authorities (not necessarily Hastings) have been noted but suggested changes or improvements have been overlooked due to roading authorities having firm plans in place.

The AA has recently completed research on Driver Risk Awareness which includes research on Making Speed Limits Clear. The research can be found at the link below and I encourage all road controlling authorities to review it.
https://www.aa.co.nz/about/aa-research-foundation/programmes/driver-risk-awareness/

In regard to the review of the bylaw I outline our response to each of the proposed reductions:

Proposal 1 Irongate Road East

We support the reduction in speed limit to 50 km/hr.

Proposal 2 Maraekakaho Road

We support the reduction in speed limit to 80km/hr. However we do not support where the proposed 80km/hr ends 150m north of the intersection with State Highway 50A.
The 80km/hr speed limit should be taken to the intersection to remove any potential confusion.

Proposal 3 East Road

We support the extension of the 50km/hr speed limit zone to 260m west of the intersection with Rockwood Place.

Proposal 4 Te Aute Road

We do not support the request to reduce the speed to 50km/hr.

The proposed Ryman development is only going to have one entrance-way for all user's midway along the

straight.

It is surprising that a vulnerable road user (Pedestrians/Cyclist/Mobility Scooters) entrance-way is not proposed (or required by HDC) at the North-eastern corner of the site to directly access the existing pathway and off road bridge crossing which are inside the existing 50kph speed limit area. This would have been a win/win situation removing vulnerable road users from the vehicle entranceway operation and having vulnerable road users pathways in the safest possible location.

The proposed works along Te Aute Road consist of:

- Full right turn bays at the Developments main Entranceway
- Full sealed shoulder on eastern side
- Kerb and channel on west side which will require a minimum sealed shoulder width of 2.0m. to allow for stopped vehicles
- Wide berm on western side (due to crown land strip) with off-road pathway.
- Removal of large shelter belt hedge
- A significant continuous fence on development boundary

These works will considerably change the road standard and the environment the road sits in. This will certainly result in:

- reduced collective and personal risk
- A change in the NZTA Map recommended Speed Limit (currently 60kph).
- An increase in mean through vehicle speeds including southbound approach to the Gilpin Road Intersection curve.
- ZERO compliance by through drivers of the proposed 50kph speed limit
- Proposed Wider Roadway will assist turning movements for properties on eastern side of Te Aute Road

Development of the land on the eastern side of Te Aute Road is unlikely in the short or medium term with the new proposed residential developments around Iona and Middle Roads. Even when the development occurs HDC has the opportunity to make the development internally serviced and retain this section of Te Aute Road as a Limited Access Road. This further re-enforces its function as a primary collector and providing an important link to the South (SH2) and to Southern and Western Hastings City areas.

Summary

The proposed 50kph speed limit is un-realistic considering the final configuration.

Even a 60kph speed limit would result in very low compliance.

Recommend an 80kph speed limit and it be extended around the Gilpin Road Intersection curve

A separate entrance way at north eastern corner of the Ryman development be put in for vulnerable road users (Pedestrians/Cyclist/Mobility Scooters) so that main entrance is only for vehicles.

Proposal 5 Te Ara Kahikatea

We support the speed limit of 80km/hr for Te Ara Kahikatea.

We would like to see an off road cyclist and pedestrian pathway be created. The existing pathway for pedestrians and cyclists is less than desirable and requires the user to ride on the road shoulder, sometimes in the path of opposing traffic.

Previously on the rail crossing location on Ruahapia Road there were electronic signs highlighting the cyclist crossing, we believe these signs should have been relocated to Te Ara Kahikatea at the cycle crossing on the Iway route.

We would also like the roundabout that it intersects with at State Highway 2, Napier Road and Pilcher Road be reviewed. There is confusion apparent at this intersection. Vehicles heading west along Te Ara Kahikatea to Havelock North often utilise the inside lane. This has caused numerous near misses when entering Napier Road when another vehicle is in the outside lane. The outside lane has right of way into Napier Road. Vehicles on the inside lane cut across lanes causing these near misses.
Either Napier Road needs two lanes off the roundabout or more clear road signs and markings are needed to advise motorists not to use the inside lane if travelling to Havelock North.
On 15 June 2019 one of our councillors viewed a small vehicle that had entered the roundabout in the inside lane and exited into Pilcher Road, in doing so they cut across traffic in the outside lane.

Proposal 6 Kereru Road

We support the reduction in speed limit to 50km/hr to the recommended point 580m west of the intersection with Bellerby Lane.

At the recent Regional Transport Committee meeting our chairman has noted that the district councils in our region will be reviewing speed limits next year. It was very encouraging to hear that all councils will work together and look at this from a region wide perspective rather than each district council looking at their patch only. We fully endorse this approach.
As part of this review our preference is that engineering improvements and the quality of the pavement are looked at before speed reductions. Improving these will most likely have a greater impact than reducing speeds. Recent AA studies have highlighted that accidents are generally the result of good people making mistakes.

On behalf of our AA District Council and our members we thank you for the opportunity to complete this submission and we look forward to working with you going forward.

Re: Proposed Speed Limit Amendments to the Speed Limit Bylaw 2012

Dear Gavin

Thank-you for the opportunity to be part of the consultation around the review of the speed limits within Hastings District, specifically the following proposals:

1. Proposal 1 – Irongate Road
2. Proposal 2 – Maraekakaho Road
3. Proposal 3 – East Road
4. Proposal 4 – Te Aute Road
5. Proposal 5 – Te Ara Kahikatea

Central Hawke's Bay District Council sees no issue with any of the proposals and will support the proposed changes to create a safer travelling environment on the roads within the Hastings District.

Yours sincerely

Monique Davidson

Dear Sir

Proposed Speed Limit Changes – Draft Statement of Proposal
Key Stakeholder Consultation Letter

Due to significant changes associated with the development of the land adjacent to the road corridor, Hastings District Council is currently reviewing a number of speed limits contained within the Speed Limit Bylaw, and has prepared a schedule of proposed amendments.

The amendments are summarised below:

Road Name	Current Speed (Km/h)	Proposed Speed (Km/h)
Irongate Road East – between the cul-de-sac and Maraekakaho Road	100	50
Maraekakaho Road – between York Road and the SH50A roundabout	100	80
East Road – to a point approximately 260m west of the intersection with Rockwood Place	100	50
Te Aute Road – to a point approximately 230m north of the intersection with Gilpin Road.	100	50
Te Ara Kahikatea	New Road	80
Kereru Road – to a point approximately 580m west of the intersection with Bellerby Lane	100	50

It should be noted that at this stage these are draft proposals for consultation, and as you are a key stakeholder, Council invites you to give feedback on the proposed Bylaw to assist in the decision making process.

The full Draft Statement of Proposal outlining the proposed changes will be available at www.myvoicemychoice.co.nz or in hardcopy from the following locations as of Thursday 23 May:

- Hastings District Council, Lyndon Road East, Hastings
- Hastings Public Library, Eastbourne Street East, Hastings
- Flaxmere Public Library, Swansea Road, Flaxmere
- Havelock North Public Library, Te Mata Road, Havelock North

DRAFT STATEMENT OF PROPOSAL
PROPOSED SPEED LIMIT AMENDMENTS TO THE SPEED LIMITS BYLAW 2012
?
LEG-02-34-19-534
HASTINGS
DISTRICT COUNCIL

Contents

A. Introduction & Background 1
B. Calculating Speed Limits 1
C. Changing Speed Limits 2
D. Administrative Details 3
Proposal 1: Irongate Road East 5
Proposal 2: Maraekakaho Road 8
Proposal 3: East Road 9
Proposal 4: Te Aute Road 11
Proposal 5: Te Ara Kahikatea 14
Proposal 6: Kereru Road 15

A. Introduction & Background

A.1 In 2005, like most other territorial authorities in New Zealand, Hastings District Council ('the Council') adopted a speed limits bylaw. The bylaw is called: "Hastings District Council Speed Limits Bylaw 2005" ('the bylaw').

A.2 In 2007, the bylaw was reviewed and replaced with Speed Limits Bylaw 2007.

A.3 In 2009, the bylaw was reviewed again and replaced with Speed Limits Bylaw 2009.

A.4 In 2012, the bylaw was reviewed again and replaced with Speed Limits Bylaw 2012.

A.5 The adoption of the bylaw was in response to a Government decision to delegate all (local) road speed limit decision making to road controlling authorities from 1 July 2005. This delegation is contained in a regulation called: "Land Transport Rule: Setting of Speed Limits 2003" ("the Rule").

A.6 In 2018, the bylaw was reviewed again and updated to reflect a number of changes to speed limits across the District.

A.7 The bylaw (inter alia) contains eleven schedules identifying road speed limits within the District and it sets out a process for changing speed limits.

B. Calculating Speed Limits

B.1 Despite the fact that speed limit decision-making is now delegated to road controlling authorities the actual calculation of speed limits remains tightly controlled. This is to ensure uniformity of approach across the country.

B.2 The rules and policies for speed limits and the method of calculating speed limits are set out in the Land Transport Rule: Setting of Speed Limits 2017. This rule requires roads to be assessed against the NZTA Speed Management Guide.

B.3 Any decision of a road controlling authority can be reviewed by New Zealand Transport Agency and the New Zealand Police.

C. Changing Speed Limits

C.1 Any change to a speed limit in the District requires a change to the bylaw and under the provisions of the Local Government Act 2002, significant change to a bylaw can only be made via the 'special consultative procedure' (SCP). The SCP is a formal consultation process that requires councils to:

- Prepare a 'statement of proposal' explaining the proposal;
- Give public notice of the proposal explaining what it is about, where details of the proposal can be viewed and inviting public submissions for a minimum one month period;
- Ensure that those likely to be most affected by the proposal are aware of the proposal;
- Consider all submissions carefully before making a decision.

(Refer to Part 6, Subpart 1 of the Local Government Act 2002 for more information.)

C.2 Furthermore, the bylaw states (clause 6.2) that with regard to proposed changes to speed limits, in addition to the 'special consultative procedure' requirements the Council will "...write to all owners and occupiers of property on the road giving them the opportunity to submit and be heard".

C.3 Finally, the Council must also comply with certain consultation and decision-making requirements set out in Part 8 of the Rule. These provisions duplicate much of the bylaw process but they identify some additional parties to be involved in the consultation – Police, AA, other (affected) road controlling authorities etc.

C.4 The Council will follow these procedures carefully and key milestones are shown below:

Date	Key Milestone
2 May 2019	Council approves DRAFT bylaw for consultation.
23 May 2019	Public consultation starts.
27 June 2019	Public consultation ends at 12 noon (last day for submissions).
15 August 2019	Council hears submissions and confirms changes.

D. Administrative Details

D.1 View the Statement of Proposal

Copies of this Statement of Proposal can be viewed at the following locations during normal office hours:

- Hastings District Council, Lyndon Road East, Hastings
- Hastings Public Library, Eastbourne Street East, Hastings
- Flaxmere Public Library, Swansea St, Flaxmere
- Havelock North Public Library, Te Mata Road, Havelock North

Alternatively, it can be viewed on the Councils website: www.myvoicemychoice.co.nz.

D.2 Make an Enquiry

Enquiries about the proposed amendment should be directed in the first instance to Gavin O'Connor, Acting Traffic Engineer at the Council. His contact details are:

- Email: gavino@hdc.govt.nz
- Phone: 06 871 5000

D.3 Make a Submission

If you would like to make an online submission on this proposal, please go to the following website: www.myvoicemychoice.co.nz or follow the link on the Hastings District Council website.

Hardcopy submission forms are also available from Hastings District Council or Public Libraries listed above.

The deadline for submissions is **27 June 2019 at 12 noon.**

Hastings District Council: Speed Limit Review 2018-2019 - Explanation of Proposed Changes

The statement of proposal details proposed speed limit changes associated to land-use change and growth only. These are roads which are currently, or will be shortly, undergoing significant change associated to development of the land adjacent the road corridor.

Proposal 1: Irongate Road East

1.1 Explanation

Irongate Road East is a cul-de-sac road which provides access to several large businesses. With a low collective and low personal risk and an Infrastructure Risk Rating band of low-medium, the safe and appropriate speed identified within the tool is 100km/h. However, this does not account for the significant scale of development proposed along this route (see figure below). In addition, the road is currently bring upgraded to better reflect the long term use of the route which will provide a more urbanised streetscape along the entire length of the road (from Maraekakaho Road to cul-de-sac end).

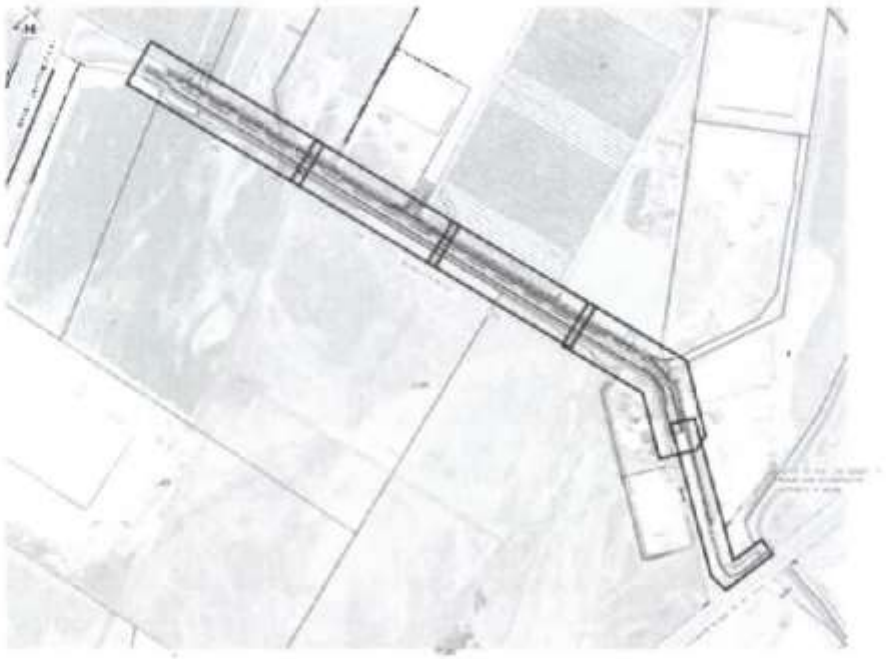

1.2 Survey Assessment

The assessment aimed to determine what a suitable speed limit for this road should be in consideration of the proposed developments along the route. As detailed above the route is identified as a Low-Medium Infrastructure Risk Rating with a suggested speed limit of 100km/h.

Infrastructure Risk Rating: Irongate Road East

However, the recommended speed limit does not consider the development proposed for this route which includes approximately 100Ha of rezoned land to industrial use. In addition, the road is currently being reconstructed along its entire length (Maraekakaho Road to cul-de-sac end) which will provide a far more urbanised solution for this route which includes kerb and channel, berm and shared footway/cycleway (see below).

Given the relatively sort length of the route, the scale of development proposed, the number of proposed access points anticipated directly from Irongate Road and the proposed urbanisation of the route it is assessed that an urban speed limit treatment (50km/h) is suitable in this instance.

1.3 Proposal

The speed limit be reduced from 100km/hr to 50km/hr along the entire length as shown.

Proposal 2: Maraekakaho Road

2.1 Explanation

As with Irongate Road East, the request to review the speed limit on Maraekakaho Road relates predominantly to the rezoning of this area to industrial and the increased level of activity (specifically vehicle movements along the route).

2.2 Survey Assessment

Maraekakaho Road is currently 100km/h along this frontage with the safe and appropriate speed limit defined by the NZTA speed management map as 100km/h. However, this map does not take account of the significant development which is occurring alongside the road and the associated traffic increases observed on this route. The mean operating speed on the route is 70km/h as detailed in the NZTA speed management map which supports the need for a reduced speed limit on this road. A reduction to 80km/h would also provide some consistency with the surrounding network following the change in speed limit on York Road to 80km/h in 2018.

2.3 Proposal

The speed limit be reduced from 100km/hr to 80km/hr from the existing 70/100 km/hr signs to a point approximately 150m north of the intersection with State Highway 50A as shown.

8

Proposal 3: East Road

3.1 Explanation

The speed limit review on this section of East Road relates to the expansion of the urban area along East Road and the proposed creation of a new road servicing a new residential subdivision.

3.2 Survey Assessment

East Road is a primary collector with low collective and low personal risk. The Infrastructure Risk Rating band of medium results in a safe and appropriate speed of 80km/h for this section of the route. However, this assessment does not take account of the proposed development at this location.

Given the proposed subdivision extents, the provision of a new access road and intersection with East Road and the natural extension of the urban boundary along East Road it is proposed to extend the 50km/h speed limit area to a point beyond the proposed access road. The figure below details the location of the proposed access road and development frontage.

3.3 Proposal

The 50km/hr speed limit zone to be extended as shown from the existing 50/100 km/hr signs to a point approximately 260m west of the intersection with Rockwood Place

10

Proposal 4: Te Aute Road

4.1 Explanation

This speed limit assessment relates solely to the section of Te Aute Road detailed below.

The speed limit over this section is under review in light of the proposed development of the land directly adjacent to Te Aute Road to cater for a six-hectare Ryman Healthcare retirement village on the boundary of the current urban area (see below).

4.2 Survey Assessment

Te Aute Road is a primary collector and provides an important link between SH2 and SH50A and Havelock North. At the state highway roundabout at the western end of the route the speed limit is 80km/h while at the eastern end the speed limit is 50km/h in Havelock North. Between the two the road is subject to the open road speed limit of 100km/h.

NZ Police submitted a request through the 2018 speed limit review process requesting consideration of an extension of the 50km/h limit to increase the separation between the speed limit change and the current "kea crossing" for Lucknow School on Te Aute Road, near Upham Street.

Te Aute Road has a medium high collective risk and a high personal risk. These are the highest risk ratings of any road under this review and are the reason that a crash reduction study has recently been undertaken along this route. The Infrastructure Risk Rating band is medium but it is due to the high personal risk that the guide indicates that the safe and appropriate speed is 60km/h.

Given the scale of the proposed roadside development and the nature of its use (elderly vulnerable users) a speed limit of 50km/h is deemed appropriate. To support this speed limit a number of proactive engineering measures are proposed along the frontage of the site as detailed below.

4.3 Proposal

The 50km/hr speed limit zone be extended as shown from the existing 50/100 km/hr signs to a point approximately 230m north of the intersection with Gilpin Road.

13

Proposal 5: Te Ara Kahikatea

5.1 Explanation

Te Ara Kahikatea is a recently constructed road serving the Whakatu Industrial Area and connecting Hastings and Havelock North to the Expressway and on to Napier. The Notice of Requirement for the new road construction detailed a proposed operating speed of 80km/h and the road was designed based on this operating speed.

5.2 Survey Assessment

The NZTA speed management maps do not currently include the Te Ara Kahikatea given its recent construction. As such, the assessment of this route relates more broadly to the design standards adopted and the previous consultations completed.

The Notice of Requirement and supporting planning materials for the creation of this road detailed a proposed operating speed of 80km/h. This proposal was ultimately endorsed through the approval of the Notice of Requirement and associated designations and formed the basis for the design parameters for the route.

Given the design is based on a speed limit of 80km/h and this has previously been consulted upon through the Notice of Requirement process it is deemed appropriate to implement this speed limit through a bylaw process.

5.3 Proposal

A speed limit of 80km/h to be adopted for Te Ara Kahikatea.

Proposal 6: Kereru Road

6.1 Explanation

The speed limit review on this section of Kereru Road relates to the expansion of residential developments along the road.

6.2 Survey Assessment

The NZTA speed management maps suggest a safe and appropriate speed limit of 80km/h along this section and also suggest an increase in speed limits on the current 50km/h section to 60km/h. The maps do not currently account for the proposed residential expansion along this road edge and hence the 80km/h suggested speed limit is not appropriate. Furthermore the mean operating speed is shown at 55km/h-59km/h within the 50km/h section which suggests good compliance with the current speed limit.

Given the strong compliance to the current speed limit of 50km/h it is recommended to extend this speed limit to cover the residential expansion rather than adopt an alternative speed limit at this site.

6.3 Proposal

The 50km/hr speed limit zone be extended as shown from the existing 50/100 km/hr signs to a point approximately 580m west of the intersection with Bellerby Lane.

This email is the NZ Transport Agency's formal response to the Hastings District Council's proposed speed limit changes.

The Land Transport Rule: Setting of Speed Limits 2017 details a number of requirements for road controlling authorities in setting speed limits on their network:

- Section 2.2(2): "In carrying out its functions under 2.2(1), a road controlling authority must consider whether a speed limit for a road is safe and appropriate in accordance with this Rule."
- Section 4.2(2) "In reviewing a permanent, holiday, or variable speed limit or considering a new permanent, holiday, or variable speed limit, a road controlling authority must have regard to—

  (a) the information about speed management developed and maintained by the Agency; and

  (b) any relevant guidance on speed management provided by the Agency; ..."

The information and guidance provided by the Agency meets its requirements under the following sections of the Rule:

- 2.4(1) "The Agency must supply, to each road controlling authority, information about speed management for public roads within that road controlling authority's jurisdiction."
- 2.4(2) "The Agency must, in supplying information under 2.4(1), prioritise information about public roads where achieving travel speeds that are safe and appropriate is likely to deliver the highest benefits in terms of safety and efficiency."

The guidance provided by the Agency is in the new Speed Management Guide dated November 2016, and the Safer Journeys Risk Assessment Tool (MegaMaps) available to all road controlling authorities. Safe and Appropriate travel Speeds for all roads in the network that the Agency has information available for, together with the top 10% of regional networks likely to deliver the highest benefit in terms of safety and efficiency, are detailed in the MegaMaps.

We have made an assessment of the listing of speed limits proposed by Hastings District Council against the requirements of the Rule and the intent of the Guide, and note the following:

- Irongate Road East – SAAS is 60km/h rather than the 100 noted in the Statement of Proposal, and question its ONRC classification as secondary collector. Agee with the 50km/h limit proposed, but if it is being urbanised (kerb and channel and footpaths) Council should consider if 40km/h is more appropriate as a safe and appropriate speed limit.
- Maraekakaho Road – agree with 80km/h limit proposed
- East Road – agree with extension of 50km/h limit proposed
- Te Aute Road – agree with extension of 50km/h limit proposed
- Te Ara Kahikatea – agree with 80km/h speed limit proposed
- Kereru Road – setting speed limits in anticipation of development is unlikely to be self-explaining to road users – current mean speeds along proposed length are 65-69km/h so Council's compliance with clause 4.4(2)(c) of the Rule if a 50km/h speed limit is implemented,

before development changes the nature of the road, is unlikely without additional speed management infrastructure.

Finally, we draw Council's attention to the Government Policy Statement encouraging all road controlling authorities to accelerate the implementation of the new Speed Management Guide, focusing on treating the top 10 percent of the network which will result in the greatest reduction in death and serious injury as quickly as possible. The Transport Agency is keen to work collaboratively with the Council, together with the Police, AA, RTF and your local communities, to accelerate addressing the top 10%, both local roads and state highways, that the Agency has detailed in MegaMaps.
