### Fit with purpose of Local Government - E noho hāngai pū ai ki te Rangatōpū-ā-Rohe

The Council is required to give effect to the purpose of local government as set out in section 10 of the Local Government Act 2002. That purpose is to enable democratic local decision-making and action by (and on behalf of) communities, and to promote the social, economic, environmental, and cultural wellbeing of communities in the present and for the future.

The above temporary road closures will be undertaken in accordance with The Local Government Act 1974 Schedule 10, section 11 and section 11(e) which states:

---

---

“11. The council may, subject to such conditions as it thinks fit (including the imposition of a reasonable bond), and after consultation with the Police and the Ministry of Transport, close any road or part of a road to all traffic or any specified type of traffic (including pedestrian traffic).”

“(e) For a period or periods not exceeding in the aggregate 31 days in any year for any exhibition, fair, show, market, concert, film-making, race or other sporting event, or public function:

Provided that no road may be closed for any purpose specified in paragraph (e) of this clause if that closure would, in the opinion of the council, be likely to impede traffic unreasonably.”

This report contributes to the purpose of local government by primarily promoting the cultural and social wellbeing of the community.

### **Consultation – internal and/or external** - *Whakawhiti Whakaaro-ā-roto / ā-waho*

The organisers of the above events have been in contact with affected parties/residents via resident visiting and letter drops.

The proposed temporary road closures of the HB Marathon have been posted on the Council website and formal public notification was published in the Hawke’s Bay Today newspaper on Thursday, 18 March 2021.

The closing date for submissions for was 4:00pm on Thursday, 1 April 2021.

A total of five people have sent emails with queries /comments to the Hastings District Council about the temporary road closures related to the HB Marathon. These emails have been sent by four residents of Te Awanga. The Four Square store operator in Haumoana also sent an email asking for information regarding the proposed temporary road closures associated with Haumoana.

#### **Summary:**

The **four emails from Te Awanga residents** broadly cover the following:

The temporary road closure process in general including the advertising, consultation process and the

---

---

legal ability of the Hastings District Council to temporarily close roads.

The private driveway to be used as a detour including Land use Agreements, the surface condition and insurance issues.

**Email 1: Cherry Taylor – Te Awanga resident**

**Comment:** Query about the use of the private roadway / driveway as a detour for residents of Te Awanga (while Clifton Road is temporarily closed), also about the surface of the roadway / driveway.

**Email 2: Steve Holder – Te Awanga resident**

**Comment:** Query about the use of the private driveway as a detour for residents of Te Awanga. Also insurance concerns and the surface condition driveway. Further comments about the Temporary Road Closure process.

**Email 3: Raewyn and John Owens – Te Awanga residents**

**Comment:** Query about alternative access during the temporary road closure of Clifton Road, along with the legal ability of Hastings District Council to temporarily close roads.

**Email 4: Janette Beattie – Te Awanga resident**

**Comment:** Query about the alternative access being used as a detour including consent from the landowners. Also resident consent query.

**Response to the above summarised comments:**

Due to the common theme of some of the questions in the emails, a summary of the officer's responses is included below:

Discussions have been undertaken with the organisers of the HB Marathon. The use of the private driveway as a detour route will be subject to land use agreements with the two separate landowners. At the time of writing this report verbal agreement has been reached between the Ironman Group and the two separate land owners.

Traffic management will be put in place which includes a temporary speed limit on the driveway. Manual traffic control (Stop / Go) will also be used to direct motorists using this detour. The slower speed environment has been put in place to maintain traffic flows and reduce the impact of the road surface on vehicles. The private driveway is narrower than a standard road and does not have a chip seal or asphaltic concrete surface. The above option is temporary and can be managed by the slower speed limit and traffic management provisions.

**The following paraphrased statement and quote is from the email sent from the HB Marathon organisers dated Tuesday, 6 April 2021.**

*From an insurance perspective any incidents (including driver behaviour or external factors) on this driveway would be covered by a combination of ACC and vehicle insurance policies. The HB Marathon event organiser has advised that they "have indemnified the owner of this private road for any claims of this nature made by third parties against the owner. This is part of our role as responsible event organisers who rely on co-operation from land owners so that our events run to plan with as little detrimental impact to the community as possible."*

### Email 5: Marie Walters – Haumoana (Four Square store operator)

**Comment:** The operator of the Four Square store in Haumoana sent an email asking for information regarding the proposed temporary road closures associated with Haumoana.

**Response:** Details of the temporary road closures associated with Haumoana with date and time information was supplied. The HB Marathon event organisers have also advised that they have spoken directly with the Four Square store operator about details of the marathon and temporary road closures.

Additionally, as part of the temporary road closure process the HB Marathon organisers have undertaken resident visiting and letter drops to affected residents. This is included as part of the temporary road closure process required by the Hastings District Council.

Temporary road closures and the Hastings District Council's authority in respect of these (which are delegated to the Civic and Administration Subcommittee) are set out under section 342(1)(b) clause 11(e) of Schedule 10 of the Local Government Act 1974.

As part of this process the Council advertises proposed temporary road closures so that the public are made aware of any such applications and have the opportunity to make a submission.

If the proposed temporary road closures are approved, final formal public notification will be published in the Hawke's Bay Today newspaper on Friday, 14 May 2021.

The emails from the four Te Awanga residents were all received prior to the 1 April 2021 closing date and officers are addressing these email comments as submissions. Responses were sent to these residents as included in **Attachment 2**. None of the residents indicated that they wished to speak to their respective submission.

A further email has been sent to these residents advising them of the meeting date and time and they have also been sent a link to the website so that they can view the agenda and report. Following the 4 May 2021 meeting the residents will be sent a copy of the Subcommittee's decision.

The above emails from Emails 1 – 4 from the Te Awanga residents are included as **Attachment 2**. Email 5 from the Haumoana Four Square store operator is included as **Attachment 3**.

Hi Craig,

I have just been made aware of a road closure on the 15th May of Clifton Road, Te Awanga. Surely this is not legal. You cannot stop people from accessing their homes and work. There is no public resident access to their property. The alternative is a private road that is not allowed to be used for public access. Have you had consent from the owners of this private road that has been suggested as an alternative for us to access work and home?

We have just been alerted to a road closure planned for 15 May to Te Awanga & Clifton? This is the first, we as residents, have heard of this?  
We are shocked that a community will be isolated with no access in or out for a number of hours & no specific times given?

Please let me know if you wish to attend and speak to your submission?

During the 2019 Hawke's Bay Marathon the same alternate route through the vineyard was used. One motorist using this route contacted the marathon organisers regarding a flat tyre.

Thank you,

Dear Craig,

I understand that the Council has announced the closure of Clifton Rd, leading into Te Awanga, on the 15<sup>th</sup> May this year, in order that a marathon race event can terminate adjacent to Elephant Hill winery. I also believe that the closure will prevent residents of Clifton and Te Awanga from being able to use the only access route in and out for a number of hours on that day – with the expectation that the private, single track through Te Awanga Estate be used as an alternative route throughout this period.

Hi Cherry,

Thank you for your email.

As per my previous email temporary road closures are advertised for submissions prior to any formal approval of them. Temporary road closures are formally approved by the Civic and Administration Subcommittee. They are not closed without formal approval and a submission process is undertaken prior to any decision being made.

During the 2019 Hawke's Bay Marathon the same alternate route through the vineyard was used. One motorist using this route contacted the marathon organisers regarding a flat tyre.

Thank you,

Lynn.

Hi Lynn

Thank you for your response. My questions are why is the organiser allowed to advertise road closure when you are asking us for submissions if against it. This is another example of the HDC doing what they like and it is already been decided.

What if the whole village was against the road closure and it has been advertised, this clearly indicates the road is going to be closed no matter what we submit.

I have been on a number of submission to HDC, and this is just a process that the council undertakes for the public but the decision is already clear it is a total waste of time for us.

The risk of using this detour is the responsibility of the council and I would like assurance that the road has been inspected and deemed suitable for high volume traffic use during that period.

Subject: RE CLOSURE OF CLIFTON ROAD ON 15 MAY 2021

Hi Craig

I give notice that I object to the above closure of Clifton Road on Saturday 15 May 2021 and assume since this event has been widely advertised and its road closures, that it is too late for HDC to make any changes. Why now do you advertise for any persons to object.

Note that there is only one road in to Te Awanga and we are expected to detour along a paper road of dirt and loose stones now used by a developer with heavy machine working in the vicinity. This is an accident waiting to happening by closing a direct access on the only road in and out of Te Awanga.

I pay road user taxes to have access to our sealed road and the only direct access in and out of the community township and we should be asked before any decision is made.

This is a pointless exercise in asking us to object now when it is all in place. I welcome your response and if you have put this to the community before any decisions were made.

Regards

Cherry Taylor

Can I please have some more information about the road closures affecting Haumoana, in particular East and Clifton Road. Our business is situated at 12 Clifton Rd and is a vital part to the community so the road closures are going to massively affect us.

## Summary of Considerations - *He Whakarāpopoto Whakaarohanga*

---

### Fit with purpose of Local Government - *E noho hāngai pū ai ki te Rangatōpū-ā-Rohe*

The Council is required to give effect to the purpose of local government as set out in section 10 of the Local Government Act 2002. That purpose is to enable democratic local decision-making and action by (and on behalf of) communities, and to promote the social, economic, environmental, and cultural wellbeing of communities in the present and for the future.

### Link to the Council's Community Outcomes – *Ngā Hononga ki Ngā Putanga ā-Hapori*

This proposal promotes the Social wellbeing of communities in the present and for the future, by promoting services to meet recreational, arts and cultural needs.

---

### Māori Impact Statement - *Te Tauākī Kaupapa Māori*

There are likely to be positive impacts for Tangata Whenua, as for the wider community.

---

### Sustainability - *Te Toitūtanga*

No known impacts for sustainability.

---

### Financial considerations - *Ngā Whakaarohanga Ahumoni*

These applications are to be funded from this year's Vibrancy Fund. The current balance is \$21,742.00 and only funding up to that amount can be considered.

---

### Significance and Engagement - *Te Hiranga me te Tūhonotanga*

This decision/report has been assessed under the Council's Significance and Engagement Policy as being of low significance.

---

### Consultation – internal and/or external - *Whakawhiti Whakaaro-ā-roto / ā-waho*

There has been no external consultation except that the Grant round has been open and transparent inviting all community organisations to apply.

---

### Risks

The recommendation being proposed is the best option to ensure an accountable and transparent governance process. Using the established and approved HDC Vibrancy Fund processes ensures security of applicants' data, supports a fair review process and established monitoring and reporting process.

---

### Rural Community Board – *Te Poari Tuawhenua-ā-Hapori*

There are no implications for Community Boards.

Group/Organisation Name	WORLD BEYOND WAR AOTEAROA NZ
Project Title	Peace Poles in Hastings.
Brief Project Description	A temporary installation of Peace Poles each created by Hastings secondary students to be displayed in the Hastings Civic Square during the month of August 2021.
Project Subject	Arts and culture; Community development; Education; International relations;
Project Beneficiaries	Universal (no particular population);
Project Rationale	Our group has instigated two public Hiroshima Day Peace ceremonies in 2019 and 2016 in Napier in conjunction with the Napier Cathedral Environment Justice and Peace Network, the Japan Society, the HB Quaker group, the HB Multicultural Association and the HB Interfaith group attended by the Mayors of Napier and Hastings. We are also working with the Mayor of Hastings to create a peace garden in the Hastings Civic Square in conjunction with the HDC. Photos attached are of the 2020 ceremony, the Civic Square in Hastings, and two examples of peace poles in Tauranga and Dunedin.
Project Activities	Our objective is to provide each of the participating secondary schools in the Hastings district, a blank peace pole 1.8m 4"X4" inches which their students would personalise to reflect the school's understanding of peace. These poles would then be assembled in the Civic Square around a 2.5m similar pole created by a local commissioned artist to provide the heart of the installation. We envisage this project would be assembled by August 8th, which is the date when we memorialise the atomic bombing of Hiroshima and Nagasaki. The installation would remain in situ for two months after which the poles belonging to the schools would be returned to be placed within their school grounds.
