12.0	Clifton to Tangoio Coastal Hazards Joint Committee Meeting Summary Report	5
-------------	--	----------

Thursday, 31 March 2022

Item 12

Te Hui o Te Kaunihera ā-Rohe o Heretaunga
Hastings District Council: Council Meeting

Te Rārangi Take

Report to Council

Nā:
From: Mark Clews, Principal Advisor: District Development

Te Take: **Clifton to Tangoio Coastal Hazards Joint Committee Meeting**
Subject: Summary Report

1.0 Purpose and summary - Te Kaupapa Me Te Whakarāpopototanga

- 1.1 The purpose of this report is to provide an update on the Clifton to Tangoio Coastal Hazard Strategy Joint Committee meeting held on 22 February 2022. As required by the Joint Committee's terms of reference, the project manager's summary notes and the meeting minutes are attached **(Attachments 1 and 2)**.
- 1.2 The main focus of the meeting was progress on the coastal ecology gap analysis prepared by Dr Shane Kelly. Dr Kelly noted that there is a lot of data and information available, but not at a level of detail sufficient for a resource consent application. Further work in this space needs to be programmed, including engaging with mana whenua.
- 1.3 Also discussed was progress on the required consultation with the Wairoa District and Central Hawke's Bay District Councils on proposal for HBRC to lead Strategy implementation and Memorandum Transition, as well as broader strategy communication and engagement matters. This included the launching of a digital survey in late March to re-engage with the community and seek input on key matters relevant to Strategy development.
- 1.4 The next meeting of the Joint Committee is due to be held on 8 April 2022, by which point the Hawke's Bay Regional Council will likely have made a final decision on the proposal to lead strategy implementation and associated Memorandum of Transition.

2.0 Recommendations - *Ngā Tūtohunga*

That the Council Meeting receive the report titled Clifton to Tangoio Coastal Hazards Joint Committee Meeting Summary Report dated 31 March 2022.

Clifton to Tangoio Coastal Hazards Strategy

Summary Notes of Meeting held 22 February 2022

1. PURPOSE

This briefing note has been prepared to communicate the activity of the Clifton to Tangoio Coastal Hazards Strategy Joint Committee to the Partner Councils, as the Committee progresses with Stage 4 of the Strategy. More information on the Strategy can be found on the project website at www.hbcoast.co.nz.

2. JOINT COMMITTEE MEETING SUMMARY: 22 FEBRUARY 2022

Key points from the Joint Committee meeting held 22 February 2022 are highlighted below. The full minutes of the meeting will be provided to each Partner Council in due course.

Project Managers Update

- Dashboard reporting is now being used to reflect project status. Key risk at this stage is project timeline.
- Developing and confirming the Memorandum of Transition through the three partner councils, and consulting with Wairoa DC and CHBDC, has remained a key focus for the Strategy over the past few months.
- The Memorandum of Transition sets out a proposal for HBRC to lead Strategy implementation.

Communication and Engagement Update

- A digital survey is to be launched in the next 2 weeks. Its purpose is two-fold – to re-engage with the community and to seek input on key matters relevant to Strategy development.
- The survey will be available on / linked to all local Council websites and social media pages and will be promoted through some local retail outlets such as cafes.
- The final workshop in the community workshop series was held in February, to confirm community engagement approaches and continue the development of thresholds, signals, and triggers. Workshop participants expressed interest in continuing to engage in the project, as the “job is not done”.

Coastal Ecology Workstream Update

- Dr Shane Kelly has been commissioned to produce a gap analysis, as a first task in the newly established Coastal Ecology Workstream. Dr Kelly was in attendance to present his findings and answer questions.
- Dr Kelly noted that there is a lot of data and information available on coastal ecology values in the Strategy area, but not to a site or project specific level of detail that would be necessary to inform a resource consent application. Further work in this space is recommended and is being programmed, including engaging with mana whenua and undertaking a synthesis assessment of currently available data.

Next Meeting

- The next meeting of the Joint Committee will be held on 8 April 2022.
